Dear ENERGY STAR for Windows, Doors, and Skylights Stakeholder:

The U.S. Department of Energy (DOE) is extending the comment period for the criteria revision until Friday, November 14, 2008. DOE has received a large number of requests for an extension from stakeholders needing additional time to complete in depth technical analyses to support their comments.

If your supporting documentation contains confidential data, please also provide a redacted public version of your comments to enable a robust dialogue among interested stakeholders, manufacturers and DOE. Send public comments via e-mail with "Criteria Revision - Public" in the subject line to:

and
