NOTE: Totals may not sum due to rounding. NOTE: RPW data are reported on a new Fiscal Year basis (October 1-September 30). In addition, RPW data are reported on a calendar month basis. Quarterly RPW reports are now defined as the sum of three calendar months (e.g., quarter one corresponds to the time period of October 1-December 31). In order to provide a basis for comparison, FY 2003 data have been recast to reflect these reporting changes. The recast of FY 2003 data uses representative data from Accounting, PERMIT, the RPW sample and other input systems and can only provide an approximate basis for calculating changes to same period last year (SPLY) data. Therefore, the changes indicated in this report should be viewed as preliminary and subject to uncertainty.

*SPLY data may differ from previous reports due to subsequent adjustments.

See accompanying Analysis to the Financial and Operating Statements beginning on page 16.

June - FY 2004

Information: Fiscal Year 2004 month of June contains the same number of business reporting days as Fiscal Year 2003 month of June.

Analysis of the Financial and Operating Statements

Government appropriation of \$8.3 million in June and \$103.7 million YTD to offset FY 2003 Emergency Preparation Programs expenses are being reclassified as revenue to be consistent with FY 2004 practice.

Revenue - Pages 1, 2, 3, 4, 5 and 6

For the current month, Total Revenue was \$59 million or 1.1% over plan. Commerical Revenue was over plan by \$80 million or 2.0% and Retail Revenue was under plan \$6 million or 0.5%. Also, in June, Total Revenue was \$265 million or 5.1% over same period last year (SPLY). Combined Commercial Revenue and Retail Revenue were \$271 million more than SPLY.

Year-to-date (YTD), Total Revenue is \$263 million or 0.5% over plan. Permit Revenue at \$739 million more than plan is the biggest driver of Total Revenue plan overrun. Conversely, Other Commercial Accounts at \$670 million or 3.9% less than plan is negatively impacting the Total Revenue performance to plan. YTD Total Revenue is \$68 million or 0.1% under SPLY.

Expenses - Pages 1, 2, 4, 7, 8 and 9

For the current month, Total Expenses were \$9 million or 0.2% above plan. While personnel costs were \$51 million or 1.2% below plan, non-personnel costs were above plan by \$43 million or 3.8%. The primary contributors of the non-personnel expense plan overrun were Vehicle Maintenance, Fuel and Utilities and Transportation. All of these expenses are being greatly influenced by the rise in energy prices. Combined, these contributors were \$41 million above plan and increased over SPLY by 16.5% or \$73 million. Total Expenses were \$262 million or 5.0% above SPLY during June.

Year-to-date, Total Expenses are \$590 million or 1.2% below plan. YTD, personnel costs and non-personnel expenses are \$167 million and \$425 million below plan, respectively. The largest contributors to the non-personnel plan underrun are Supplies & Services, Transportation and Information Technology, which are \$164 million, \$162 million and \$102 million below plan, respectively. Transformation Plan initiatives, Supply Chain Management, more effective utilization of our transportation network, and other cost containment initiatives are continuing to drive most of our savings. Some positive impact to non-personnel savings are derived from the timing of payment for invoices versus planned payment. These cost containment activities have assisted in offsetting cost increases in other areas. Retiree health benefits have risen 15% or \$133 million YTD. The nonpersonnel lines most impacted by the increase in energy related prices, Vehicle Maintenance, Fuel & Utilities and Transportation have risen a total of \$100 million YTD.

June - FY 2004

Analysis of the Financial and Operating Statements (Continued)

Mail Volume and Revenue - Page 3

Total Mail Volume for June, FY 2004 was 1,161 million pieces or 7.6% above SPLY. First-Class Mail, Express Mail, Periodical Mail, Standard Mail and International were above SPLY, while Priority Mail and Packages were below their June, 2003 levels. Quarter 3 volume was 2.0% above same quarter last year.

Year-to-date, Total Mail Volume is 1.4% or 2.2 billion pieces above SPLY. The most significant mail volume increase above SPLY for FY 2004 YTD is in the Standard Mail category which increased 3.3 billion pieces or 4.9%. YTD, First-Class Mail volume is 1.4% less than SPLY, generating \$513 million or 1.8% less revenue than SPLY.

Capital Investments - Pages 1 and 13

The Fiscal Year 2004 Capital Commitments YTD through June 30, 2004 are \$1,079 million compared to a plan of \$1,168 million. This represents an underrun of about \$89 million or 7.6%.

The Cash Outlays YTD are \$1,116 million versus a plan of \$1,512 million, representing a \$396 million underrun to plan.

Workhours - Pages 1, 14 and 15

Total workhours for June 2004 were 3.5 million hours or 2.9% below plan and 2.4 million hours or 2.0% below June 2003. Every functional operation produced workhours below plan. Other Workhours and Mail Processing posted the most workhour savings to SPLY, 1.3 million hours and 1.0 million hours, respectively.

Total workhours for June, 2004 YTD are 21 million hours or 1.9% below SPLY. This reduction in workhours reflects the continuation of cost containment activities through the installation of more efficient mail processing equipment and other productivity enhancements. To date, Mail Processing workhours have been reduced 9.6 million hours or 3.6% below SPLY. Other Workhours, relating to Limited Duty, Rehabilitation and Headquarters General Management hours also played a major role by using 11.5 million hours less than SPLY. The reduction in Limited Duty and Rehabilitation hours is directly impacted by the initiative to include these operations in our calculation of productivity improvement opportunity.
