USCIS ISSUES SERVICE CENTER AND LOCKBOX RECEIPTING UPDATE

WASHINGTON - U.S. Citizenship and Immigration Services (USCIS) announced today that it has experienced a tremendous increase in the number of applications filed, which has resulted in a front log of cases awaiting data-entry. USCIS is making every effort to address the delay.

USCIS will prioritize data entry for specific form-types. Delay in data entry and fee receipting will not affect Change of Status or Extension of Stay eligibility, assuming all other eligibility requirements are satisfied. USCIS would also like to assure its customers that requests for Premium Processing Service will continue to be processed within 15 days, consistent with existing policies and procedures.

The actual received date will be honored and recorded on the receipt notice. This date will appear in the "Received Date" box on Form I-797, Notice of Action. The received date on Form I-797 is different from the "Notice Date," which also appears on the Notice and identifies the date the receipt notice was actually generated.

USCIS will provide weekly updates to give our customers accurate information about current receipt times and service level commitments. As of the date of this notice, USCIS has completed data entry and has issued receipt notices for applications and petitions received on or before the following dates:

California Service Center

Form Number:	Date Received
N-400	7/18/2007
All Other	8/2/2007

Nebraska Service Center
