Dear Citizen:

The Bureau of Land Management would like you to be a part of the development of the resource management plans (RMP) that will guide BLM management activities in Western Oregon, including the Roseburg District, for the next 10-20 years. The BLM is revising the RMPs to find a better way to meet the O&C Act's requirement of managing O&C lands for permanent forest production while complying with other laws, such as the Endangered Species Act and the Clean Water Act. The plan revision process began in September 2005, and the BLM released its draft RMP in August 2007.

Because of the complex issues and the substantial public interest in the plan, the BLM has extended the public comment period until January 11, 2008! We are seeking your suggestions on our new Roseburg District RMP and need your help in determining the best solution for recovery of both sustainable timber production and endangered species. We encourage you to submit your comments online, at <http://www.daylightdecisions.com/wopro/>. This website allows you to make comments specific to portions of the document, or to make comments specific to your favorite places on the Roseburg District, through an interactive mapping tool.

The BLM will consider public comment for the final plans, due out next year. To find out more about the Western Oregon Plan Revision, please visit our website: <http://www.blm.gov/or/plans/wopr/index.php>

Thank you for your interest in the management of public lands in Douglas County.

## Non-Discretionary Actions Under Reciprocal Right-of-Way Agreements

A reciprocal right-of-way agreement is a document exchanging access rights between BLM and a permittee pursuant to 43 CFR 2812 regulations. BLM has 140 individual agreements and easements that were executed prior to the implementation of the Roseburg District Record of Decision and Resource Management Plan (ROD/RMP p. 71). These 140 agreements are subject to regulations in effect at the time the agreements were executed or assigned. The BLM's discretion on activities pursuant to these agreements (such as road construction) is limited to that described in the agreement itself.
