BLM Road and Ranch Maintenance Underway

Road maintenance activities are currently underway at the Bureau of Land Management's North Bank Ranch approximately 12 miles northeast of Roseburg. The project will improve access in the area for everyone as well as protect our natural resources. Maintenance activities include culvert replacement, road re-surfacing, and repair of slides, washouts and stream crossings. The work is expected to be completed by October 3.

Recreationists utilizing the North Bank Ranch should be alert for additional traffic and equipment on the roads, as well as the possibility of temporarily closed access roads.

To provide for public safety, the contractor may periodically close the gravel road leading from the main entrance to the Comstock Day Use area while work is in progress. The public should avoid using the Blacktail Basin road where the road work is being performed and equipment may have the road blocked.

The main entrance gate will be open the normal summer hours from 8:00am to 8:00pm on Saturday and Sunday. Maps of the work area and changes to the information in this notice will be posted on the board at the main entrance.

For further information, please contact the Roseburg District BLM office at 541-440-4930.
