## **BLM to temporarily close Bodkins Road #24-8-25.2**

**The Bureau of Land Management will soon be replacing a rusted out culvert with a new 60-inch diameter culvert on the Tye Access/Bodkins Road near Miner Wolf Creek (BLM Road No. 24-8-25.2) approximately 3/4 mile up the Tye access bridge road. To ensure safety for the public and work crews, approximately 2.5 miles of Bodkin Road will be closed from Sept 6-15.**

About the BLM -- The BLM manages more land – 258 million surface acres – than any other Federal agency. Most of this public land is located in 12 Western states, including Alaska. The BLM, with a budget of about \$1.8 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The BLM accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, and cultural resources on the public lands.
