BUREAU OF LAND MANAGEMENT

Date: October 21, 2008

TIMBER SALE NOTICE

NOTICE IS HEREBY GIVEN that the Bureau of Land Management will offer for sale timber as described herein for oral auction, pursuant to Instructions to Bidders, as stated on Form No. 5440-9 and subject to Notice of Requirement for Certification of Nonsegregated Facilities, Form No. 1140-4, attached. Written and oral bids will be received by the District Manager, or his representative, at 777 NW Garden Valley Blvd., Roseburg, Oregon 97471. The timber sale will commence at 10:00 a.m., on Tuesday, November 18, 2008.

AN ENVIRONMENTAL ASSESSMENT was prepared for these sales, and a Finding of No Significant Impact has been documented. These documents are available for inspection as background for this sale at the Roseburg District Office.

THIS TIMBER SALE NOTICE does not constitute the decision document for purposes of protest and appeal of a forest management decision. Consistent with 43 CFR Subpart 5003-Administrative Remedies, the notice of a timber sale, when published as a legal ad in a newspaper of general circulation, shall constitute the decision document for purposes of protest and appeal. Protests may be filed with the Contracting Officer within 15 days after the first publication of the aforementioned decision document in the newspaper. It is anticipated that the decision document will be published in *The News Review* newspaper on or about October 21, 2008. BLM does not warrant publication on this exact date. All parties considering protest of the timber sale decision document are encouraged to review the aforementioned newspaper to ensure accurate knowledge of the exact publication date.

A WRITTEN BID on Form No. 5440-9 at no less than the appraised price on a unit basis per species and the required minimum bid deposit shall be required to participate in oral bidding for each tract. Since bidding on minor species usually has little effect on the final outcome of a sale and can be disruptive to the bidding process, BLM will accept bids over appraised price for Douglas-fir only.

APPRAISED PRICES are determined by analytical appraisal methods unless otherwise noted on individual timber sale notices.

FOR SET-ASIDE TRACTS, the bidder must not have been determined by the Small Business Administration to be ineligible for preferential award of set-aside sales and must accompany his deposit with a self-certification statement that he is qualified as a small business concern as defined by the Small Business Administration in its regulations, Title 13, Chapter I, Part 121 as amended, of the Code of Federal Regulations. Form No. 5430-1, Self Certification Statement, and SBA Form 723, Small Business Certification Required on All Preferential Sales of Set-Aside Timber, are attached hereto.

THE SUCCESSFUL BIDDER, as a condition of award, will be required to complete and/or sign the following forms:

1. Form No. 1140-6, Independent Price Determination Certificate, a certification that the bid was arrived at by the bidder or offeror independently, and was tendered without collusion with any other bidder or offeror.
2. Form No. 1140-7, Equal Opportunity Affirmative Action Program Representation, for all contracts over \$10,000.
3. Form No. 1140-8, Equal Opportunity Compliance Report Certification.
4. Form No. 5430-1 Self Certification Clause
5. Form No. 5450-17, Export Determination.

PRE-AWARD QUALIFICATIONS. The high bidder may be required to furnish information to determine the ability to perform the obligations of the contract. If the high bidder is determined not qualified, responsible or refuses to respond within fifteen (15) days of a request for information pertaining to qualifications, the contract may be offered and awarded for the amount of the high bid to the highest of the bidders who is qualified, responsible, and willing to accept the contract.

A PERFORMANCE BOND in an amount not less than twenty (20) percent of the total purchase price will be required for all contracts of \$2,500 or more, but the amount of the bond shall not be in excess of \$500,000, except when the Purchaser opts to increase the minimum bond as provided in 43 CFR 5451.2. A minimum performance bond of not less than \$500 will be required for all installment contracts less than \$2,500.

LOG EXPORT AND SUBSTITUTION. All timber sales shall be subject to the restrictions relating to the export and substitution of unprocessed timber from the United States in accordance with P.L. 94-165 and 43 CFR 5400 and 5420, as amended.

ADDITIONAL INFORMATION concerning each timber sale tract described herein is available at the above District Office. A copy of the timber sale contract is also available for inspection at the District Office.

THE VOLUMES LISTED herein are estimates only, based on 16-foot taper breaks, which must be taken into consideration if comparisons are made with volume predictions based on other standards. The volumes based on 32-foot taper breaks are shown for comparison purposes. No sale shall be made for less than the total purchase price, without regard to the amount bid per unit, even though quantity of timber actually cut or removed or designated for taking is more or less than the estimated volume or quantity so listed.

INSTALLMENT PAYMENTS may be authorized for sales of \$500 or more. Required installments will be determined by BLM. For sales under \$500,000, installments will not be less than ten (10) percent of the total purchase price. For sales of \$500,000 or more, installment payments shall be \$50,000.

CRUISE INFORMATION

3P (Fall, Buck & Scale & Volume Table Cruise Combined)

The Douglas-fir has been cruised using the 3P system to select sample trees. Part of the sample trees have been felled, bucked and scaled and the remainder have been cruised and their volume computed on form class tables for estimating volume in 16-foot lengths. The sample tree volumes were expanded to a total sale volume.

The volume of all other species has been determined by individual tree measurements using a 100% cruise.

With respect to merchantable trees of all species: the average tree is 11.5" D.B.H.O.B., the average log contains 35 bd. ft., the total gross volume is approximately 1,392 M bd. ft. (MBF) and 95 percent recovery is expected.

CUTTING AREA: An area of approximately 133 acres in 6 units is to be partially cut. A right-of-way of 2 acres must be cut.

TIMBER ACREAGE:

Area 1: 35 acres	Area 5: 19 acres
Area 2: 16 acres	Area 6: 8 acres
Area 3: 25 acres	R/W: 2 acres
Area 4: 30 acres	

ACCESS: Access to the sale area is provided by Government and privately controlled roads. A road use fee of \$168.64 will be required.

DIRECTIONS TO SALE AREA:

To access the Harvest Areas, from Roseburg, Oregon, proceed south on Interstate 5 for approximately twenty-one (21.0) miles to the Tri-City Riddle Exit 103. Travel west on County Road No. 20 which changes to County Road No. 263, then to County Road No. 39. Travel southwest on County Road No. 39 to its junction with County Road No. 39A. Turn left onto County Road No. 39A, cross Cow Creek over the Council Creek Bridge and proceed to the junction of County Road No. 93. Turn right onto County Road No. 93 and proceed to the junction of the 31-6-4.0 road. To access Harvest Areas No. 1, No. 2 and No. 3 turn left on the 31-6-4.0 road and follow it to the contract area. To access Harvest Areas No. 4, No. 5 and No. 6 proceed to the end of County Road No. 93 where it becomes BLM Road No. 31-6-5.0. Follow the 31-6-5.0 to the contract area. Refer to timber sale Exhibits A and D for further details.

ROAD MAINTENANCE: Maintenance and rockwear fees of \$3,177.25 will be required to be paid to the BLM. Maintenance and rockwear fees required to be paid to Roseburg Resources Company will be at the same rate per mile per MBF as the BLM charges at time of haul. \$6,130.56 was used in the appraisal.

ROAD CONSTRUCTION: Estimates include approximately 26.39 station of road construction and 10.54 stations of road renovation as shown on Exhibit C.

DURATION OF CONTRACT will be 24 months for cutting and removal of timber. The contract will contain SPECIAL PROVISIONS regarding: logging; environmental protection; road construction, renovation, maintenance and use; fire protection; slash disposal; log exporting and Non-segregated Facilities. Log scaling may be required under the terms of this contract.

NOTES:

1. A Special Provision is included in the contract which enables the Contracting Officer to suspend the contract to facilitate protection of a certain plant or animal species, and/or to modify or terminate the contract when necessary to comply with the Endangered Species Act or a court order. This contract provision limits the liability of the Government to the actual costs incurred by the Purchaser which may not have been amortized by timber removed from the contract area.
2. This contract contains provisions for the sale and removal of additional timber necessary to facilitate safe and efficient Purchaser operations. These provisions include: (1.) The designation and sale of additional timber, such as corridor and guyline trees, at contract price, as necessary to facilitate safe and efficient logging. Such trees may be felled and removed when they are painted by the Authorized Officer; (2.) Sale of additional timber volume at current fair market value where the species and/or size of trees are not representative of the forest stand(s) being thinned; (3.) Government reservation of trees previously marked for cutting (replacement) when the Authorized Officer determines that it is necessary in order to maintain stand densities consistent with objectives set forth in management prescriptions; (4.) The use of unilateral modifications executed by BLM for such additional and replacement timber; (5.) Revocation of the Purchaser's right to cut additional timber if the Authorized Officer determines that trees have been cut and removed that were not previously marked and approved for cutting and removal by the Authorized Officer; and, (6.) It is estimated that approximately 66 MBF of such additional timber may be removed under the contract, but is not included in the advertised sale volume nor was it included in the timber sale appraisal. This estimate is a net figure reduced by the estimate of the volume of trees previously marked for cutting, which the Authorized Officer may elect to reserve.

3. The following seasonal operating restrictions apply to this sale.
 - (a) No road construction or renovation shall be conducted between October 15 of one calendar year and May 15 of the following calendar year, both days inclusive.
 - (b) No timber falling, bucking or yarding shall be conducted on the Contract Area from April 15 to July 15 of each calendar year, both days inclusive, due to bark slip.
 - (c) No timber yarding shall be conducted on those Harvest Areas accessed by temporary roads from October 15 of one calendar year to July 15 of the following calendar year, both days inclusive.
4. **Harvest Areas No. 2, No. 5, No. 6 and those portions of No. 1 and No. 3, accessed by rock roads are available as winter logging opportunities and may proceed after October 15th and continue until April 15th (onset of barkslip).** Refer to attached seasonal restriction matrix for unit specifics.
5. **The Purchaser will perform all road decommissioning operations.** Decommissioning operations for Spurs No. 1, No. 4, No. 5 and No. 6 and Road No. 31-6-17.8 will be completed in the same operating season in which they are used for harvest activity and will include waterbarring, seeding, mulching and road blocks.
6. Cable yarding shall be done with a skyline yarding system capable of maintaining one-end suspension of logs, and equipped with a mechanical slack pulling carriage with a minimum of one hundred (100) feet of lateral yarding capability. Yarding corridors will be limited to a maximum width of twenty (20) feet. Spar height cannot exceed forty (40) feet with a maximum power rating of 225 HP.
7. Cable yarding of all Harvest Areas may require the use of lift trees and/or intermediate support trees.
8. In all Harvest Areas, trees designated for cutting shall be felled, topped, limbed and cut in log lengths not to exceed **forty-one (41) feet prior to being yarded.**
9. To prevent the introduction of noxious weeds to the Contract Area, all logging and road building equipment, **except log trucks,** must be steam cleaned or pressure washed prior to initial move-in or upon return to the sale area if used elsewhere.
10. In the event administrative check scaling is requested by the BLM, the Purchaser must obtain a safe location, to be approved by the Authorized Officer, where logs can be unloaded, rolled out and scaled in accordance with Eastside Scribner Decimal C Rules by BLM scalers or independent scalers contracted to the BLM. The purchase price of the contract shall be reduced accordingly as compensation for delays in log transportation time.
11. Harvest acres shown on Exhibit A are net acres after roads interior to Harvest Area boundaries have been deleted from acreage calculations.
12. A license agreement with Roseburg Resources Co. is required for log and mineral haul upon their roads.
13. Upon request by the Purchaser, snow removal will be performed.

14. During logging operations, the Purchaser shall keep Roads No. 31-6-4.0, No. 31-6-5.0 and 31-6-17.0 where they pass through the contract area, clear of trees, rock, dirt and other debris so far as is practicable. The road shall not be blocked by such operations for more than **thirty (30)** minutes unless otherwise approved by the Authorized Officer.
15. Flaggers are required to control traffic on Roads No. 31-6-4.0, No. 31-6-5.0 and 31-6-17.0 whenever falling or yarding operations pose a hazard to traffic passing through or adjacent to Harvest Areas No. 2, No. 3, No. 4, No. 5 and No. 6.
16. **The BLM has revised the log export restrictions special provision to reduce the log branding and painting requirements. The new requirements include branding of end of all logs with a scaling diameter of over 10 inches. All loads of 11 logs or more, regardless of the diameter of logs, will have a minimum of 10 logs branded on one end. All logs will be branded on loads of 10 logs or less. One end of all branded logs will be marked with yellow paint. At the discretion of the Contracting Officer, the Purchaser may be required to brand and paint all logs. The Purchaser shall bear any increased costs for log branding and painting.**
