# U.S. Sentencing Commission Preliminary Quarterly Data Report 

3rd Quarter Release
Preliminary Fiscal Year 2008 Data
Through June 30, 2008

## Introduction

As part of its ongoing mission, the United States Sentencing Commission provides Congress, the judiciary, the executive branch, and the general public with data extracted and analyzed from sentencing documents submitted by courts to the Commission. ${ }^{1}$ Data is reported on an annual basis in the Commission's Annual Report and Sourcebook of Federal Sentencing Statistics. ${ }^{2}$ After the Supreme Court's decision in United States v. Booker on January 12, 2005, which rendered the sentencing guidelines advisory instead of mandatory, many people expressed an interest in knowing what changes, if any, in federal sentencing practices would result. The Commission responded by reconfiguring its data collection, analysis, and reporting efforts to provide real-time data reporting from the submitted documents.

The Commission first reported data on February 10, 2005 to Congress ${ }^{3}$ and began reporting data approximately monthly shortly thereafter. The types of data reported increased over time to accommodate various requests for the additional information. In March 2006, the Commission released a comprehensive report, Final Report on the Impact of the United States $v$. Booker on Federal Sentencing, ${ }^{4}$ based on cases sentenced one year since the Booker decision. Because the report included additional analyses that had not been included in the monthly reports, not all the data presented in the report was comparable with the monthly releases, which made comparing data over time difficult.

In an effort to standardize the Commission's post-Booker analyses and to facilitate the identification of emerging trends going forward, the Commission began generating a new set of tables and charts on a quarterly basis for public release on the Commission's website beginning with the third quarter of fiscal year 2006. These quarterly data reports are similar in format and methodology to tables and figures produced in the Sourcebook or in the Commission's Booker report. Some of the figures include data from fiscal years before the Booker decision to facilitate analysis of sentencing trends over time. Other figures and all of the tables contain cumulative data (i.e., data from the start of the fiscal year through the most current quarter). Appendix B cross-references the quarterly table numbers and figure letters as well as the corresponding number or letter in the Sourcebook (if it exists in the Sourcebook) so that the quarterly data can

[^0]be compared easily with data from prior fiscal years. ${ }^{5}$ In Appendix A are descriptions of datafile and variable definitions.

Users of the quarterly releases are cautioned that the quarterly data are preliminary only and subject to change as the Commission collects, analyzes, and reports on additional cases throughout the fiscal year. When data for each new quarter is made available, the Commission will update the previous preliminary quarterly totals in the most recent release until the release of the final fiscal year data in the Commission's Sourcebook. For example, the data reported in the initial release for the second quarter of fiscal year 2008 may change as the Commission receives and analyzes documents during the remaining quarters for additional cases sentenced during the second quarter. ${ }^{6}$ Any subsequent changes in the quarterly data for the second quarter would be reflected initially in the subsequent quarterly releases and finally in the Commission's Annual Report and Sourcebook of Federal Sentencing Statistics. As a result, quarterly data should not be considered final until publication of the Commission's Annual Report and Sourcebook.

## AVERAGE SENTENCE LENGTH AND AVERAGE GUIDELINE MINIMUM QUARTERLY DATA FOR ALL CASES ${ }^{1}$

Fiscal Years 2003-2007,

${ }^{1}$ Cases with guideline minimums of life or probation were included in the guideline minimum average computations as 470 months and zero months, respectively. In turn, cases with sentences of 470 months or greater (including life) or probation were included in the sentence average computations as 470 months and zero months, respectively. In addition, the information presented in this table includes time of confinement as described in USSG $\$ 5 \mathrm{C} 1.1$. Guideline minimums account for applicable statutory mandatory penalties. Descriptions of variables used in this table are provided in Appendix A.

${ }^{1}$ Cases included in this category are those in which the court submitted Form AO 245B (Revision 06/05) to the Commission. Only cases in which all required pages of this form were submitted with no deletions or substantive changes are included in this category. Form AO 245B was approved by the Executive Committee of the Judicial Conference of the United States in June 2005.
${ }^{2}$ Cases are included in this category for one or more of the following reasons: one or more of the required pages of Form AO 245B (Revision 06/05) were missing; deletions or substantive changes were made in Form AO 245B (Revision 06/05) that prevented the USSC from collecting the information required to be submitted by 18 U.S.C. §3553(c); the outdated version of Form AO 245B was submitted; or a unique, district created, or modified form was submitted.

## Appendix A <br> Descriptions of Datafiles and Variables

## Introduction

Federal courts are required to forward to the Commission sentencing documentation on all offenders sentenced under the Sentencing Reform Act of 1984 (SRA), except in cases that solely involve petty offenses. Standard information on each case is extracted from sentencing documents received and computerized for analysis.

Given the nature of the datafile and reporting requirements, the following are not included: cases initiated but for which no convictions were obtained, offenders convicted for whom no sentences were yet issued, and offenders sentenced but for whom no sentencing documents were submitted to the Commission. Because the Commission collects information only on cases sentenced under the guidelines, information on cases sentenced under prior law (pre-guidelines) during the current fiscal year is not available in this dataset. When cases are sentenced under both prior law and the guidelines, only the guideline relevant information is coded in the dataset.

Note that for all tables, total percentages may not add up to exactly 100 percent due to rounding.

## Variables

The following section describes the variables used in this report.

## Above Guideline Range With Booker/18 U.S.C. § 3553

Above Guideline Range with Booker/18 U.S.C. § 3553 consist of cases sentenced above the guideline range in which no departure was indicated and in which the court cited United States v. Booker, 18 U.S.C. $\S 3553$, or related factors as one of the reasons for sentencing of the guideline system.

## Age

The Age of the offender on the day of sentencing is calculated using the offender's date of birth as reported in the Pre-sentence Report and the date of sentencing as reported in the Judgment of Conviction order.

## All Remaining Cases Above Guideline Range

All Remaining Cases Above Guideline Range consist of cases sentenced above the guideline range that could not be classified into any of the other three above the range categories. This category includes cases in which no reason was provided for a sentence above the guideline range.

## All Remaining Cases Below Guideline Range

All Remaining Cases Below Guideline Range consist of cases sentenced below the guideline range that could not be classified into any of the other three below the range categories. This category includes cases in which no reason was provided for a sentence below the guideline range.

## Average Sentence Length

Using sentencing information obtained from the Judgment of Conviction order, Average Sentence Length is reported as the mean and median terms of imprisonment (including any months of alternative confinement as defined in §5C1.1) ordered for cases committed to the Bureau of Prisons. Cases that
receive no term of imprisonment (i.e. probation) are also included in the average. Cases for which a term of imprisonment is ordered but the length is indeterminable also are excluded. In most cases for which the exact term is unknown, the Judgment of Conviction order merely specifies a sentence of time served. Prior to fiscal year 1993, the Commission defined life sentences as 360 months. However, to reflect life expectancy of federal criminal offenders more precisely and to provide more accurate length of imprisonment information, life sentences are now defined as 470 months.

Below Guideline Range With Booker/18 U.S.C. § 3553
Below Guideline Range with Booker/18 U.S.C. § 3553 consist of cases sentenced below the guideline range in which no departure was indicated and in which the court cited United States v. Booker, 18 U.S.C. § 3553, or related factors as one of the reasons for sentencing of the guideline system.

## Circuit

Information on judicial Circuit is generated by computer using the location of the judicial district in which the offender was sentenced.

## Citizenship Status

Information on the Citizenship Status of offenders is obtained from the Presentence Report. Offenders are categorized as one of the following: "U.S. citizen," "resident alien," "illegal alien," and "non-U.S. citizen, alien status unknown." The latter three categories are collapsed into the category of "non-U.S. citizen."

## Degree of Decrease

Degree of Decrease is calculated based on the difference between the length of imprisonment (not including any months of alternative confinement as defined in §5C1.1) and the guideline minimum for the following categories of below range cases: departures below the guideline range, departures below the guideline range with Booker/18 U.S.C. § 3553, below the guideline range with Booker/18 U.S.C. § 3553, all other below range cases, $\S 5 \mathrm{~K} 1.1$ substantial assistance cases, and $\S 5 \mathrm{~K} 3.1$ early disposition program cases, and other government sponsored cases. Life sentences, and cases where the guideline minimum is zero months or life are all excluded from all degree of decrease calculations due to the logical difficulty in calculating a decrease from these values.

## Degree of Increase

Degree of Increase is calculated based on the difference between the guideline maximum and the length of imprisonment (not including any months of alternative confinement as defined in §5C1.1) for the following categories of above range cases: departures above the guideline range, departures above the guideline range with Booker/18 U.S.C. § 3553, above the guideline range with Booker/18 U.S.C. § 3553, and all other above range cases. Life sentences, sentences of probation, and cases where the guideline minimum is life are all excluded from all degree of increase calculations due to the logical difficulty in calculating an increase from these values.

## District

Information on the judicial District in which sentencing occurred is obtained from the Judgment of Conviction order.

## Document Submission Rates

Five documents are represented in the document submission rate table: Judgment of Conviction order (J\&C), Presentence Report (PSR), Statement of Reasons (SOR), Indictment/Information (Ind), and Plea Agreements (Plea). The J\&C and PSR generally are submitted in a standardized format. PSRs waived by
the court are indicated in a separate column. Standardized forms for the Statement of Reasons are most frequently submitted; however, transcripts or partial transcripts from the sentencing hearing are also included as Statement of Reasons Received. Cases in which the Commission was unable to determine definitively whether the offender's guilty plea was entered pursuant to a written agreement are excluded from the Plea Agreement totals.

## Downward Departure From Guideline Range

Downward Departure from Guideline Range consist of cases with downward departures in which the court did not indicate as a reason either United States v. Booker, 18 U.S.C. § 3553, or a factor or reason specifically prohibited in the provisions, policy statements, or commentary of the Guidelines Manual.

## Downward Departure With Booker/18 U.S.C. § 3553

Downward Departure with Booker/18 U.S.C. § 3553 consist of cases sentenced below the guideline range in which the court indicated both a departure (see Downward Departure From Guideline Range) and a reference to either United States v. Booker, 18 U.S.C. § 3553, or related factors as a reason for sentencing outside of the guideline system.

## Drug Offense Guideline

Drug Offense Guideline information is obtained from the Presentence Report and is based on the guidelines in USSG Chapter Two, Part D. The six guidelines featured in the tables (§2D1.1, §2D1.2, §2D1.5, §2D1.6, §2D1.8, and §2D2.1) represent the vast majority of drug cases.

## Drug Type

Information on Drug Type is obtained from the Judgment of Conviction order or the Presentence Report. It is recorded only if at least one of the statutes of conviction recorded by the Commission is a title 21 U.S. Code offense or a non-title 21 offense when the underlying conduct involves a controlled substance. Information about type of drug in the text and tables is derived from the primary drug type (i.e., the type that produces the highest base offense level). The category Marijuana includes Hashish and Hashish oil. The category Methamphetamine includes pure (actual) methamphetamine, "ICE", methamphetamine mixture, and methamphetamine precursors (specifically including ephedrine and pseudoephedrine). ("ICE" has been included in the methamphetamine category since FY1996). All drug types not listed separately in this report are collapsed into the "other" drug category.

## Education

Information on education of the offender is obtained from the Presentence Report and is collapsed into general categories. Technical, military, and vocational training as well as course work at community colleges are included in the Some College category. A general equivalency degree (GED) is included in the High School Graduate category.

## Gender

Gender of the offender is obtained from the Presentence Report or probation office.

## Government Sponsored

Government sponsorship of a departure is determined by a yearly case review by USSC staff of both the reasons for departure and the coding by USSC staff of any indication of government sponsorship as indicated on the Statement of Reasons. The SOR form AO245B version 12/03 and 06/05 have specific check-boxes to indicate the origins of the departure, but cases which do not use this form may also indicate in writing the origins of the departure. Additionally, all cases with one or more of the following
reasons were classified as being sponsored by the government regardless of whether the SOR indicated sponsorship: pursuant to a plea agreement (binding, non-binding, or unknown), fast track, savings to the government, early plea, deportation, waiver of indictment and/or appeal, other government motion, global disposition, due to stipulations, facilitated early release of a material witness, joint recommendation, and large number of immigration cases. Note that since the USSC reviews the reasons on a yearly basis this list might be modified slightly from year to year. Unless otherwise broken out in the table or chart, this category also includes cases with §5K3.1 Early Disposition Program (EDP) departures.

## Guideline Offenders Sentenced

Each Guideline Offender Sentenced or case, as recorded by the USSC, involves a single sentencing event for a single offender. Multiple counts, and even multiple indictments, are considered a single sentencing event if sentenced at the same time by the same judge. A single offender may appear in more than one case if involved in more than one sentencing event during the fiscal year. Co-offenders in the same sentencing will each appear as separate cases.

## Guideline Sentencing Range

The Guideline Sentencing Range is taken from the Statement of Reasons provided by the sentencing court. Alternatively, if the Statement of Reasons is missing, then the information is taken from the Presentence Report.

For tables in this report, unless otherwise indicated, the guideline sentencing range does not take into account applicable statutory restrictions on either the maximum or the minimum of the range; therefore, it may differ from the available range, which does take into account the statutory restrictions.

## Mode of Conviction

Information on Mode of Conviction is obtained from the Judgment of Conviction order. Offenders sentenced subsequent to a plea of guilty or nolo contendere are included in the Plea category. Offenders sentenced subsequent to a trial by judge or jury are included in the Trial category. Rare cases involving both a plea and a trial are included in the Plea category.

## Outside of the Range Attribution Categories

All categories replicate the list of checkboxes available on the SOR Form AO245B (Both 12/03 and $06 / 05$ ). Not all checkbox categories are available in both the departure section and sentences outside the guideline system section on this form and that multiple checkboxes may be indicated in a single case so that totals in a table may exceed the total number of cases. USSC uses these checkboxes in determining government sponsorship: all cases in which one of the pursuant to a plea agreement boxes is indicated are attributed to the government. Additionally cases where a §5K1.1, §5K3.1, or other government motion checkbox was indicated in the pursuant to a motion not in a plea agreement section are also attributed to one of the government sponsored categories. Additionally other types of SOR forms may indicate sponsorship in writing and these attributions are also included in the appropriate category.

## Position of Sentence

The Position of Sentence describes within-range guideline sentences in terms of their relative positions within their applicable guideline ranges. Only cases with complete information from the Statement of Reasons are used for this table. The Position of Sentence is determined by dividing the available range in half. This allows a sentence to fall into one of five distinct categories: the guideline minimum; the exact midpoint of the range; the guideline maximum; the lower-half of the range (when not at the guideline minimum); and the upper-half of the range (when not at the guideline maximum). The "available range"
is the guideline range with applicable statutory restrictions on either the maximum or the minimum of the range taken into account. (For cases in which guideline §5C1.2 was applied, in accordance with the provisions of the guideline, the statutory restrictions on the range are those from 18 U.S.C. § 3553(f).) In cases in which the sentence is located outside the available sentencing range, departure information is provided as reported by the sentencing court. Differences in the number and percentage of cases in each range quarter may differ from other tables presented in this report; this is due to the exclusion of any case missing both complete information from the Statement of Reasons and information on statutory minima and maxima.

## Primary Offense Category

Information on Primary Offense Category is obtained from the Judgment of Conviction order. The "primary" offense code for the case is determined to be the offense code applicable for the count of conviction with the highest statutory maximum. If two or more counts are found to have the same statutory maximum, "primary" offense is selected according to which count of conviction has the highest statutory minimum. Finally, in the event of a small number of cases still tied, the offense type that best represented the nature of the criminal behavior is chosen.

For convenience in analysis, a summary variable describing "primary offense category" is derived. This code is generated by grouping similar primary offense codes into a smaller set of categories. Note that the primary offense categories differ between the individual and organizational offender datafiles. Listed below are the offense types that are grouped into each of the primary offense categories used in the individual datafile tables for this report:

Murder includes first degree murder, felony with death resulting, second degree murder, and conspiracy to murder (with death resulting).

Manslaughter includes both involuntary and voluntary manslaughter.
Kidnapping/Hostage includes ransom taking and hostage/kidnapping.
Sexual Abuse includes sexual abuse of a minor, sexual abuse of a ward, criminal sexual abuse, and abusive sexual contact.

## Race

Information on Race of the offender is obtained from the Presentence Report in separate categories of race and ethnicity (White, Black, Native American or Alaskan Native, and Asian or Pacific Islander). Ethnicity data indicate whether a offender is of Hispanic origin. (For purposes of this report, offenders whose ethnic background is designated as Hispanic are represented as Hispanic in all tables regardless of racial background.) The Other category includes offenders of Native American, Alaskan Native, and Asian or Pacific Islander origin.

## Type of Guideline Sentence Imposed

Using sentencing information obtained from the Judgment of Conviction order, the Total Receiving Prison column includes the number of offenders sentenced (and percent of Total Cases) who received a commitment to the Bureau of Prisons. This column is the sum of cases in Prison and the Prison/Community Split Sentence categories.

The Prison category includes offenders sentenced to a term of imprisonment only, with no additional conditions of community confinement, home detention or intermittent confinement.

The Prison/Community Split Sentence category includes all cases in which offenders received prison and conditions of alternative confinement as defined in USSG §5C1.1. This category includes, but is not limited to, Zone A, Zone B, or Zone C cases receiving prison with additional conditions of a term of community confinement, home detention, or intermittent confinement.

The Total Receiving Probation column includes the number of offenders sentenced (and the percent of Total Cases) who received a term of probation with or without a condition of community confinement, intermittent confinement, or home detention. This column also represents the total of the Probation Only and Probation and Confinement categories.

The Probation Only column includes the number of offenders who received a term of probation without a condition of community confinement, intermittent confinement, or home detention.

Probation and Confinement includes the number of offenders who received a term of probation with a condition of community confinement, intermittent confinement, or home detention.

## Upward Departure From Guideline Range

Upward Departure from Guideline Range consist of cases with upward departures in which the court did
not indicate as a reason either United States $v$. Booker, 18 U.S.C. § 3553, or a factor or reason specifically prohibited in the provisions, policy statements, or commentary of the Guidelines Manual.

## Upward Departure With Booker/18 U.S.C. § 3553

Upward Departure with Booker/18 U.S.C. § 3553 consist of cases sentenced above the guideline range in which the court indicated both a departure (see Upward Departure From Guideline Range) and a reference to either United States v. Booker, 18 U.S.C. § 3553, or related factors as a reason for sentencing outside of the guideline system.

## Year

Information on Year is obtained from the Judgment of Conviction order. Unless otherwise indicated, the sentencing year is defined as the fiscal year in which the offender was sentenced.

## Zone

The Sentencing Table is categorized into sentencing Zones. Courts may impose various types of punishment as alternatives to imprisonment. Alternative types of punishment include: probation, home detention, community confinement, and intermittent confinement. Imposition of alternative types of punishment is restricted to offenders within specific sentencing zones.

Zone A: a guideline range is in Zone A when the minimum term of imprisonment specified is zero months;

Zone B: a guideline range is in Zone $B$ when the minimum term of imprisonment specified is at least one but not more than six months;

Zone $C$ : a guideline range is in Zone C when the minimum term of imprisonment specified is eight months when criminal history category is four or less, and nine months if the criminal history category is greater than four;

Zone $D$ : a guideline range is in Zone D when the minimum term of imprisonment specified is twelve months or more.

See Chapter 5 of the Guidelines Manual for a description of alternatives to imprisonment and the conditions under which they are applicable.

Table 25 ................................................................................................ Table 7
Table 26 .............................................................................................. . . Table 9
Table 27 ........................................................................................... . Tables 1

[^0]:    ${ }^{1}$ In each felony or Class A misdemeanor case sentenced in federal court, sentencing courts are required to submit the following documents to the Commission: the Judgment and Commitment Order, the Statement of Reasons, the plea agreement (if applicable), the indictment or other charging document, and the presentence report. See 28 U.S.C. § 994(w).
    ${ }^{2}$ See the Commission’s website, www.ussc.gov, for electronic copies of the 1995-2007 Annual Report and Sourcebook of Federal Sentencing Statistics.
    ${ }^{3}$ See www.ussc.gov/bf.htm for an electronic copy of the prepared testimony of Ricardo H. Hinojosa, chair of the United States Sentencing Commission, before the Subcommittee on Crime, Terrorism, and Homeland Security, Committee on the Judiciary, United States House of Representatives, February 10, 2005.
    ${ }^{4}$ See www.ussc.gov/bf.htm for an electronic copy of the Commission's Final Report on the Impact of United States v. Booker on Federal Sentencing.

[^1]:    ${ }^{5}$ The Commission has tried to maintain the same table numbers and figure letters over the past several years but due to slight differences in reporting categories between pre- and post-Booker time periods, the numbers and letters may not correspond exactly over time. Please refer to the table of contents for each of the prior Sourcebook years to determine the corresponding table number or figure letter.
    ${ }^{6}$ The reasons for data changes in previous quarters is due to one or more of the following reasons: the courts have up to 30 days to submit court documents to the Commission; the Commission both extracts information from the documents and screens cases through the quality control procedures and does not include any case in a data release unless it has been fully entered and reviewed; some documents are sent in later than other documents and the datafiles are then updated with the new information; the Commission receives amended court documents and updates the datafile based on the new information; the Commission matches its datafile to datafiles from the Administrative Office of the United States Courts and requests any case documents not received - a process that can only be completed after the documents have been received and the information entered into the Commission's database. For all of the above reasons, data may be excluded/included or reported differently from one quarter to another.

[^2]:    ${ }^{1}$ This table reflects the 53,686 cases sentenced on or after October 1, 2007, with court documentation cumulatively received, coded, and edited at the U.S. Sentencing Commission by September 8, 2008. Of these, 1,196 cases were excluded because information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range. Descriptions of variables used in this table are provided in Appendix A.
    ${ }^{2}$ All cases with departures in which the court did not indicate as a reason either United States v. Booker, 18 U.S.C. § 3553, or a factor or reason specifically prohibited in the provisions, policy statements, or commentary of the Guidelines Manual.
    ${ }^{3}$ All cases sentenced outside of the guideline range in which the court indicated both a departure (see footnote 2 ) and a reference to either United States $v$. Booker, 18 U.S.C. § 3553, or related factors as a reason for sentencing outside of the guideline system.
    ${ }^{4}$ All cases sentenced outside of the guideline range in which no departure was indicated and in which the court cited United States $v$. Booker, 18 U.S.C. § 3553, or related factors as one of the reasons for sentencing outside of the guideline system.
    ${ }^{5}$ All cases sentenced outside of the guideline range that could not be classified into any of the three previous outside of the range categories. This category includes cases in which no reason was provided for a sentence outside of the guideline range.
    ${ }^{6}$ Cases in which a reason for the sentence indicated that the prosecution initiated, proposed, or stipulated to a sentence outside of the guideline range, either pursuant to a plea agreement or as part of a non-plea negotiation with the defendant.

[^3]:    ${ }^{1}$ Of the 53,686 cases, 1,196 were excluded because information was missing from the submitted documents that prevented the comparison of the sentence and the guideline range. Districts for which information needed to determine the relationship between the sentence imposed and the guideline range is missing in five percent or more of the cases received included: Western Oklahoma (37.0\%), Central California (22.4\%), Middle Georgia (17.4\%), Eastern Virginia (15.7\%), Middle Tennessee (7.9\%), Northern New York (7.5\%), and Western Washington (5.7\%). Descriptions of variables used in this table are provided in Appendix A.

[^4]:    ${ }^{1}$ Of the 53,686 cases, 1,314 were excluded due to one or both of the following reasons: missing primary offense (121) or missing information from the submitted documents that prevented the comparison of the sentence and the guideline range $(1,196)$. Descriptions of variables used in this table are provided in Appendix A.

[^9]:    ${ }^{1}$ Of the 53,686 cases, 7,201 received a §5K1.1 substantial assistance departure. Of these, 6,892 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a guideline minimum of life, an additional 82 cases were also excluded from this table. Of the remaining 6,810 cases, three were excluded due to missing sentence information. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1.
    Descriptions of variables used in this table are provided in Appendix A.

[^10]:    ${ }^{1}$ Of the 53,686 cases, 4,041 received a $\S 5 \mathrm{~K} 3.1$ early disposition program departure. Of these, 3,844 had complete guideline application information. One additional case was excluded due to several logical criteria. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^11]:    ${ }^{1}$ Of the 53,686 cases, 2,146 received an other government sponsored downward departure. Of these, 1,978 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a guideline minimum of life, an additional seven cases were also excluded from this table. Of the remaining 1,971 cases, two were excluded due to missing sentence information. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^12]:    ${ }^{1}$ Of the 53,686 cases, 1,105 received a downward departure from the guideline range. Of these, 1,057 had complete guideline application information. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^13]:    ${ }^{1}$ Of the 53,686 cases, 652 received a downward departure from the guideline range with Booker / 18 U.S.C § 3553. Of these, 611 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a guideline minimum of life, an additional four cases were also excluded from this table. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^14]:    ${ }^{1}$ Of the 53,686 cases, 4,626 were sentenced below the guideline range with Booker / 18 U.S.C $\S 3553$. Of these, 4,408 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a guideline minimum of life, an additional 13 cases were also excluded from this table. Furthermore, two cases were excluded due to several logical criteria. Of the remaining 4,393 cases, five were excluded due to one or both of the following reasons: missing primary offense category (1) or missing sentence information (5). Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^15]:    ${ }^{1}$ Of the 53,686 cases, 534 were otherwise sentenced below the guideline range. Of these, 467 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a guideline minimum of life, an additional five cases were also excluded from this table. Of the remaining 462 cases, one was excluded due to missing primary offense category. Note that the information presented in this table does include sentences of probation, but does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^16]:    ${ }^{1}$ Of the 53,686 cases, 235 received an upward departure from the guideline range. Of these, 220 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a sentence of life, one additional case was also excluded from this table. Furthermore, two cases were excluded due to several logical criteria. Note that the information presented in this table does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^17]:    ${ }^{1}$ Of the 53,686 cases, 103 received an upward departure from the guideline range with Booker/ 18 U.S.C $\S 3553$. Of these, 93 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a sentence of life, one additional case was also excluded from this table. Furthermore, two cases were excluded due to several logical criteria. Note that the information presented in this table does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.

[^18]:    ${ }^{1}$ Of the 53,686 cases, 427 were sentenced above the guideline range with Booker / 18 U.S.C § 3553 . Of these, 414 had complete guideline application information. Due to an inability to calculate the extent of departure for cases with a sentence of life, an additional two cases were also excluded from this table. Furthermore, one case was excluded due to several logical criteria. Note that the information presented in this table does not include any time of alternative confinement as described in USSG $\S 5 C 1.1$. Descriptions of variables used in this table are provided in Appendix A.

[^19]:    ${ }^{1}$ Of the 53,686 cases, 84 were otherwise sentenced above the guideline range. Of these, 80 had complete guideline application information. 23 additional cases were excluded due to several logical criteria. Note that the information presented in this table does not include any time of alternative confinement as described in USSG §5C1.1. Descriptions of variables used in this table are provided in Appendix A.
