Attn: Land Lease Division

To Whom It May Concern...

... and this concerns us all!

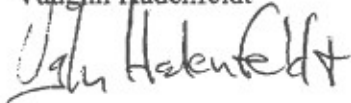

We are writing to ask that you not allow any gas and/or oil leases in Cottonwood Wash north of Bluff, Utah. Specifically we are protesting the lease of:
parcel #264, Sect. 24 Cottonwood Wash north of Bluff.

We understand that the "oil country" of the Aneth oil fields surrounds us. We would like to stress, however, the idea that the BLM is responsible for managing *many* uses of our public lands and that we don't need to sacrifice any more of the open space in this region to oil and gas exploration and extraction.

Thank you for listening to the will of the people that this issue will impact.

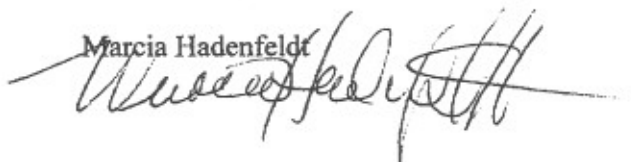

Sincerely,

Vaughn Hadenfeldt
