COMMUNITY STRATEGIC PLAN

2006-2011 2008 ALIGNMENT

COMMUNITIES
COMMITTED TO
SUCCESS FOR ALL
STUDENTS

DEPARTMENT OF DEFENSE EDUCATION ACTIVITY

Forward

The Community Strategic Plan (CSP) contains the strategic direction for the Department of Defense Education Activity (DoDEA) for the years 2006-2011. The plan is a road map for keeping DoDEA at the forefront in advancing the Department of Defense's agenda for education and as a leader in the Nation for improving student performance and achievement.

In April 2008, a committee composed of representatives from DoDEA Headquarters, Area Deputy Directors, and employee association officials met in Arlington, Virginia to review the 2006-2011 Community Strategic Plan. Their charge was to

ensure congruency and alignment among goals, outcomes, measures, and milestones. The result of that committee's work was an alignment to the plan, called the 2008 CSP Alignment.

The 2008 Alignment to DoDEA's 2006-2011 Community Strategic Plan supplies direction for improving our continuous efforts to provide the highest quality education for all students and ensure their success inside and outside the classroom. The process used to develop this five-year plan, along with the vision, mission, guiding principles, and goals is contained in the following pages. This document clarifies the connection between the strategies, actions, and measures we will use to achieve our goals and objectives. The 2008 CSP Alignment is easier to read and understand, provides clear and specific objectives, and defines measures to better match objectives.

DoDEA plans, directs, coordinates, and manages the education programs for Department of Defense (DoD) dependents who would otherwise not have access to a high-quality public education. DoDEA consists of the Department of Defense Dependents Schools (DoDDS) located overseas, and the Department of Defense Domestic Dependent Elementary and Secondary Schools (DDESS) located in the United States and its territories and possessions. DoDEA provides education to eligible DoD military and civilian dependents from pre-kindergarten through 12th grade.

VISION Communities committed to

success for ALL students!

MISSION

To Provide an Exemplary Education that Inspires and Prepares All DoDEA Students for Success in a Dynamic, Global Environment.

GUIDING PRINCIPLES

Productive citizenship is embedded in the Guiding Principles and is an inherent core value of all CSP goals for all DoDEA stakeholders.

Success for All Students

Trust and Respect for Others

Uncompromising Advocacy for Students

Development of Lifelong Learners

Equal Access to Quality, Rigorous Education

New and Motivating Challenges to Inspire Excellence

Teaching with High Expectations

Safe and Stable Learning Environment

Goal ONE

All students will meet or exceed challenging standards in academic content so that they are prepared for continuous learning.

Objective ONE

All students
will show
academic
growth
(beginning
to end of
school year)
in student
achievement
through a
curriculum
that challenges
each student
to excel.

Strategy ONE

Data-driven decision making to ensure an aligned continuous improvement process.

DoDEA External (System-Wide) Assessments

The following assessments will be adopted and in use by the year 2011:

End-of-course assessments will be administered in selected critical academic courses at the high school level.

The results will provide individual student achievement levels as well as comparative data across schools, districts, areas, and the DoDEA system.

Results of the assessments will not be used to determine whether a student passes or fails a course, but will provide meaningful information to the student, parents, and teachers concerning strengths and weaknesses of individual students and groups of students.

College entrance exams (SAT and ACT) are normally taken by students in grades 11 and 12 on a voluntary basis.

Glossary of Terms

21st Century Skills

Skills students need to compete in the workplace of today and in the new global economy. These skills include critical thinking, problem solving, communication, self-direction, and computer and technology skills.

all levels

Headquarters (DoDEA), Offices of the Area Directors (DDESS, DoDDS-Europe, and DoDDS-Pacific), Offices of the District Superintendents, and schools.

alternate assessment

An assessment that is substituted for a systemor district-wide assessment. It is used with students who cannot participate in the systemor district-wide assessment with or without accommodations. The alternate assessment ensures that all children are represented in the system- and district-wide accountability systems.

cocurricular/extracurricular

Activities available at the high school level that occur after the school day. The extracurricular

activities may vary across schools to meet the unique needs of the school community.

content standard

A standard is a statement of a specific expectation. A content standard is a statement of what a student should know or be able to do.

criterion-referenced assessment

A measure that reports student progress or achievement compared with predetermined levels of quality.

data

Data is information used as a basis for reasoning, discussion, or decision-making.

disaggregated

Student achievement data that has been reported by ethnicity/race, gender, or economic status. Reporting of disaggregated data identifies within-group student achievement patterns so that appropriate strategies are designed and implemented.

disciplines

A term used to describe content or subject areas such as reading, math, social studies, or science.

diverse workforce

Personnel who reflect differences in race, age, color, religion, sex, national origin, and disabilities.

Educational Partnership

DoDEA's Educational Partnership Branch is actively building relationships with local education agencies (LEAs), especially in those areas that will be impacted by base realignment and closure, global rebasing and force structure changes. DoDEA is sharing best practices not only in educational areas, but in support and social areas as well, to help LEAs better understand the challenges and transitions military-connected students face.

emerging technologies

Technologies such as podcasts, blogs, Internet2, handheld computers, and virtual reality.

external (system-wide) assessment

An assessment that is selected and administered throughout DoDEA for the purpose of measuring student progress or achievement.

high quality indicators

Data used for measuring the quality and degree of implementation of a particular program. The data often includes research-based principles and practices that can make a difference in teaching and student learning.

internal assessment

A student assessment that is selected and administered at the school, district, or area level for the purpose of measuring student progress or achievement.

interventions

Strategies to support student success.

kaizen (continuous improvement)

Kaizen is a Japanese philosophy that focuses on continuous improvement throughout all aspects of life and in all functions of organizations. The kaizen philosophy has had many iterations and name changes over the years. The key elements of continuous improvement (kaizen) are planning, focusing on quality and effort, involvement of all employees, reflection and communication.

life-cycle replacement

A systematic schedule to replace obsolete or worn-out items, materials, and equipment (e.g., athletic uniforms, furniture, musical instruments), and technology.

management systems

A standard operating procedure defining the distribution and accountability of resources.

modifications

Adjustments to support student success.

norm-referenced assessment

A measure that reports student progress or achievement compared with a nationally representative group of students at the same grade level.

online learning

Online learning is education in which

instruction and content are delivered primarily via the Internet.

partnerships and alliances

Networks with a common goal of supporting student success which may include the following:

- parents/students/staff/military community;
- local school systems;
- institutions of higher education;
- military, businesses, and organizations;
- professional associations

performance standards

Standards that describe how well students are expected to know the content. Performance standards also specify how students will show they know the content, as well as what knowledge they need to demonstrate.

performance-based assessments

A method of evaluation where students apply what they have learned through presentations, responses, and/or products. These assessments are under the larger heading of standards-based assessments, which are measures that are aligned to the organization's standards.

Communities Committed to Success for All Students

professional development

Programs, courses, and activities designed to further educate certified personnel.

proficiency level

The acceptable level of achievement as defined by the performance standard.

resource allocation

Distribution of funds, manpower, and materials.

resources

Funds, manpower, materials, and community support.

scale scores

The scale score is the basic score for the TerraNova standardized achievement test. Scale scores for one content area test in TerraNova cannot be compared to scores from another content area.

standards-based system

A standards-based system measures its

success based on student learning (the achievement of the standards) rather than compliance with rules and regulations.

strategy

A strategy is a plan or method used to reach an objective or goal.

support services

Resources designed to supplement or enrich the educational process.

system-wide assessment program

The collection of student achievement measures that are administered to all students at selected grade levels. The TerraNova, administered to students in grades 3-11, is one component of the system-wide assessment program.

TerraNova

A standardized achievement test administered to DoDEA in grades 3-11 in reading/language arts, math, science, and social studies. Standardized tests are designed to sample the skills and knowledge that students are usually expected

to acquire as they progress through the grades. Standardized test results can be used to make comparisons between schools, districts, or between DoDEA and the national norm group.

training

Programs, courses, and activities designed to further educate personnel at all levels.

unit

A school, district, or area office.

virtual school

A virtual school is an educational organization that offers K-12 courses through Internet or Web-based methods. In other words, a virtual school or online learning program offers formal instruction and other resources that comprise a course of study.
