- *Is there goal “fit?”* – are these the right goal and focus areas for JPO? Some criteria could include:
  - Do the mission & goals rise to the critical challenges of the next 10 years?
  - Are the goals feasible – financially, politically, and literally?
  - Do the goals represent the work that the JPO is best at?
- *Is there goal agreement* – how strong is the Committee’s agreement with these goals or are there significant questions?
- *Should the mission statement remain* as is or be strengthened, given the discussion above?
