

Petro Processors of Louisiana Brooklawn Site Evolution

Petro Processors Brooklawn Site in 1999 while the free phase recovery system was in operation.

After the removal of the recovery wells the site grading was finished, fertilized and mulched. The before and after pictures show recover of the grass cover on the newly seed area. Both pictures looking southeast from the Brooklawn bluff, left taken May 13, 2008: right taken August 13, 2008.
