***Eunice Kennedy Shriver* National Institute of Child Health & Human Development**
Division of Epidemiology, Statistics & Prevention Research
Prevention Research Branch

Postdoctoral Position
Child and Adolescent Health Promotion

At least one postdoctoral position in child and adolescent health promotion is available at the Prevention Research Branch (PRB) in the Division of Epidemiology, Statistics and Prevention Research. This position is open to doctorates (Ph.D.s, Dr.P.H.s, or equivalent) in behavioral science (e.g., psychology, public health, behavioral epidemiology, health education, nutrition). Scientists in the PRB conduct behavioral research, with an emphasis on the development and evaluation of prevention and intervention programs targeting youth and their families. Postdoctoral fellows collaborate with senior scientists on ongoing research on adolescent health behaviors.

We are particularly looking for interest and expertise in at least one of the following research areas: (1) etiology of the crash risk and driving performance of novice young drivers; (2) the etiology of adolescent health behaviors; (3) prevention and management of chronic disease among adolescents, particularly diabetes. Strong analytic skills are required. Experience with the analyses of longitudinal studies and complex datasets preferred. Applications will be reviewed upon receipt and continue until the position is filled. For additional information about the Branch, go to <http://www.nichd.nih.gov/about/despr/despr.htm>.

To apply, go to <http://www.training.nih.gov/apps/publicForms/postdoctoral/forms/adIndex.aspx>, or send CV and statement of research interests and training goals to:
