

financial assistance. The ineligibility period is provided in the HEA. (4) New instructions have been added to clarify that Coverdell savings accounts, 529 college savings plans, and the refund value of 529 or State prepaid tuition plans should be reported as an asset of the account owner (unless the owner is a dependent student). (5) In addition, the FAFSA instructs applicants to exclude the value of a small business that the family owns and controls and that has 100 or fewer full-time or full-time equivalent employees. The following data elements have been deleted from the FAFSA because of space constraints on the paper form: Questions 27 and 28 regarding the student's interest in student loans or work-study and questions 94–97 representing a fifth and sixth college choice. Question numbers refer to the 2006–2007 FAFSA. The Secretary requests comments on these proposed changes to wording, as well as suggestions for ways to further simplify the application for students, parents, and schools. In particular, the Secretary is interested in comments regarding the best manner in which to construct a simplified form for applicants who qualify for an automatic zero or simplified needs test EFC calculation, including applicants who now qualify based on receipt of benefits from a Federal means-tested benefit program. The Secretary is publishing this request for comment under the provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 et seq. Under that Act, ED must obtain the review and approval of the Office of Management and Budget (OMB) before it may use a form to collect information. However, under procedure for obtaining approval from OMB, ED must first obtain public comment of the proposed form, and to obtain that comment, ED must publish this notice in the **Federal Register**. In addition to comments requested above, to accommodate the requirements of the Paperwork Reduction Act, the Secretary is interested in receiving comments with regard to the following matters: (1) Is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
