

DEPARTMENT OF COMMERCE**Submission for OMB Review;
Comment Request**

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Groundfish Tagging Program.

Form Number(s): None.

OMB Approval Number: 0648–0276.

Type of Request: Regular submission.

Burden Hours: 88.

Number of Respondents: 661.

Average Hours Per Response: Forms for tagged fish, 5 minutes; electronic archival tag return, 30 minutes.

Needs and Uses: The Groundfish Tagging Program provides scientists with information necessary for effective conservation, management, and scientific understanding of the groundfish fishery off Alaska and the Pacific Northwest. The program area includes the Pacific Ocean off Alaska (the Gulf of Alaska, the Bering Sea and Aleutian Islands Area, the Alexander Archipelago of Southeast Alaska), California, Oregon, and Washington. The distribution, movement rates and direction, growth, recruitment and mortality estimated from tag recoveries are important parameters used in groundfish population assessment models and in developing allocation systems.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395–3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482–0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Cooperatives in the Bering Sea and Aleutian Islands.

Form Number(s): None.

OMB Approval Number: 0648–0401.

Type of Request: Regular submission.

Burden Hours: 320.

Number of Respondents: 11.

Average Hours Per Response:

Cooperative preliminary report, 20 hours; cooperative final report, 8 hours; inshore cooperative catcher vessel pollock catch report, 5 minutes; and appointment of agent for service of process, 5 minutes.

Needs and Uses: The cooperative management structure, originally implemented by the American Fisheries Act (AFA), has shifted more of the monitoring and enforcement burden to the cooperatives and their members; and has allowed NMFS to manage the Bering Sea and Aleutian Islands pollock fishery more precisely. With the flexibility provided by cooperatives, vessels are able to individually (and in aggregate) come very close to harvesting exactly the amount of pollock they were allocated. The allocations of pollock and other species have allowed the AFA fleet the ability to spread their effort in time and space to accommodate Steller Sea Lion conservation measures. This collection describes some of the recordkeeping and reporting requirements under the AFA Program.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395–3897.

Type of Request: Regular submission.

Burden Hours: 787.

Number of Respondents: 234.

The database is intended to provide information to improve restoration methods, provide the basis for required reports to Congress, and track estuary habitat acreage restored. Estuary habitat restoration project information will be submitted by habitat restoration project managers through an interactive Web site, and will be accessible to the public via Internet for data queries and project reports.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of Foreign Direct Investment in the United States (Form BE-15) obtains sample data on the financial structure and operations of nonbank U.S. affiliates of foreign

investors. The data are needed to provide reliable, useful, and timely measures of foreign direct investment in the United States, assess its impact on the U.S. economy, and based upon this assessment, make informed policy decisions regarding foreign direct investment in the United States. The data are used to derive annual estimates of the operations of U.S. affiliates of foreign investors, including their balance sheets; income statements; property, plant, and equipment; external financing; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity. In addition, data covering employment and property, plant, and equipment are collected by state. The data are also used to update similar data for the universe of U.S. affiliates collected once every five years on the BE-12 benchmark survey.

BEA proposes the following changes to the survey, beginning with the survey for 2006: (1) Add a question to the BE-15 EZ, short form, and long form to identify the accounting principles used to compile and report the survey data. (2) Modify the question on the BE-15 long form that collects information on the major industrial activity of the U.S. affiliate to include all of the affiliate's major activities; currently, information on only one major activity is collected. (3) Include a check box on the BE-15 Supplement C to determine if a U.S. affiliate is claiming an exemption based on a merger or on a consolidation; currently, a single check box covers both mergers and consolidations. (4) Clarify certain instructions, add illustrative diagrams, and modify formatting in an effort to make the survey forms more clear and easier to complete. Taken together, these changes will not affect the overall respondent burden for the survey.

II. Method of Collection

The BE-15 annual survey is sent to potential respondents at the end of March each year. A completed report covering a reporting company's fiscal year ending during the previous calendar year is due by May 31. Reports must be filed by every nonbank U.S. business enterprise that is owned 10 percent or more by a foreign investor and that has total assets, sales, or net income (or loss) of over \$30 million. Potential respondents are those nonbank U.S. business enterprises that reported in the 2002 benchmark survey of foreign direct investment in the United States, along with nonbank businesses that subsequently entered the direct investment universe. The BE-15 is a

sample survey, as described; universe estimates are developed from the reported sample data.
