

Description: California Independent System Operator Corp. on behalf of itself and Pacific Gas & Electric et al submits an amendment to the Transmission Control Agreement, Rate Schedule 7 among the ISO and the Participating Transmission Owners.

Filed Date: 8/11/2006.

Accession Number: 20060816-0250.

Comment Date: 5 p.m. Eastern Time on Friday, September 1, 2006.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call

(866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP06-85-000]

CenterPoint Energy Gas Transmission Company; Notice of Availability of the Final Environmental Impact Statement for the Proposed Carthage to Perryville Project

August 18, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this Final Environmental Impact Statement (EIS) for the natural gas pipeline facilities proposed by CenterPoint Energy Gas Transmission (CEGT) under the above-referenced docket. CEGT's Carthage to Perryville Project (Project) would be located in various counties and parishes in eastern Texas and northern Louisiana.

The Final EIS was prepared to satisfy the requirements of the National Environmental Policy Act. The FERC staff concludes that the proposed Project, with the appropriate mitigation measures as recommended, would have limited adverse environmental impact.

The U.S. Fish and Wildlife Service (FWS) and the U.S. Army Corps of Engineers (COE) are Federal cooperating agencies for the development of this EIS. A Federal cooperating agency has jurisdiction by law or special expertise with respect to any environmental impact involved with the proposal and is involved in the NEPA analysis.

The general purpose of the proposed Project is to facilitate the transport of up to 1.2 billion cubic feet per day of natural gas received from production areas in eastern Texas, as well as northern Louisiana, to markets in the Midwest and Northeastern regions of the United States that can be accessed through interconnects with existing pipeline infrastructure.

The Final EIS addresses the potential environmental effects of construction and operation of the following facilities:

- About 172.1 miles of 42-inch-diameter natural gas pipeline in Panola County, Texas, and Caddo, DeSoto, Red River, Bienville, Jackson, Ouachita, and Richland Parishes, Louisiana;
- Two new, 20,620 horsepower (hp) gas-turbine-driven compressor stations,

the Panola and Vernon Compressor Stations, located in Panola County, Texas, and Jackson Parish, Louisiana, respectively;

- Two meter and regulator stations at receipt points with three intrastate pipelines, including:

—Houston Pipe Line (HPL) Meter/Regulator (M/R) Station in Panola County, Texas;

—Duke Energy Field Services-Enbridge M/R Station in Panola County, Texas;

- Four new meter and regulator stations at interconnects with existing interstate pipelines, including:
- Texas Gas M/R Station in Ouachita Parish, Louisiana;
- ANR M/R Station in Richland Parish, Louisiana;
- Trunkline M/R Station in Richland Parish, Louisiana;
- Columbia Gulf M/R Station in Richland Parish, Louisiana;
- 11 mainline valves; and
 - Four pig launcher/receiver facilities associated with the Panola and Vernon Compressor Stations and the HPL and Columbia Gulf M/R Stations.

CEGT proposes to construct its pipeline facilities in two phases. Construction of Phase I would be initiated in October 2006 and completed by February 2007, at which point CEGT would place the proposed Project in-service. Under Phase I, a single, 10,310-hp turbine compressor would be installed at each compressor station. Under Phase II, a second compressor would be installed to bring the total installed compression at each facility to 20,620 hp. CEGT indicates that Phase II facilities would be installed and operational by October 2008.

The Final EIS has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

A limited number of copies of the Final EIS are available from the Public Reference Room identified above. In addition, CD copies of the Final EIS have been mailed to affected landowners; various Federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; local libraries and newspapers; intervenors; and other individuals that expressed an interest in the proposed Project. Hard-copies of the Final EIS have also been mailed to those who requested that format during the scoping and comment periods for the proposed Project.

In accordance with the Council on Environmental Quality's (CEQ)

regulations implementing NEPA, no agency decision on a proposed action may be made until 30 days after the U.S. Environmental Protection Agency (EPA) publishes a notice of availability of a Final EIS. However, the CEQ regulations provide an exception to this rule when an agency decision is subject to a formal internal process that allows other agencies or the public to make their views known. In such cases, the agency decision may be made at the same time the notice of the Final EIS is published, allowing both periods to run concurrently. Should the FERC issue CEGT authorizations for the proposed Project, it would be subject to a 30-day rehearing period. Therefore, the Commission could issue its decision concurrently with the EPA's notice of availability.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>). Using the "eLibrary link," select "General Search" and enter the project docket number excluding the last three digits (i.e., CP06-85) in the "Docket Number" field. Be sure you have selected an appropriate date range. For assistance, please contact *FERC Online Support* at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or TTY (202) 502-8659. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

In addition, the FERC now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to <http://www.ferc.gov/esubscribenow.htm>.

Magalie R. Salas,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2006-0398; FRL-8086-6]

Release of Draft Brochure on Current Best Practices to Prevent Asbestos Exposure Among Brake and Clutch Repair Workers; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: EPA is announcing the release of a draft brochure entitled, *Current Best Practices for Preventing Asbestos Exposure Among Brake and Clutch Repair Workers*. This brochure, when finalized, is intended to provide information for automotive professionals and home mechanics on preventing exposure to brake and clutch dust that may contain asbestos fibers. The draft brochure summarizes work practices that may be used to avoid asbestos exposure and identifies pertinent Occupational Safety and Health Administration (OSHA) regulatory requirements for professional automotive mechanics, which are found at 29 CFR 1910.1001, specifically paragraph (f)(3) and Appendix F. These same requirements also are contained in EPA's Worker Protection Rule, found at 40 CFR part 763, subpart G, which applies to State and local government employees who perform brake and clutch work in States without OSHA-approved State plans. The draft brochure also provides related information for home mechanics to consider. When finalized, this brochure will update and supercede the existing document entitled, *Guidance for Preventing Asbestos Disease Among Auto Mechanics* (EPA-560-OPPTS-86-002), commonly referred to as the "Gold Book." The public is encouraged to provide comments to EPA regarding this draft brochure, which can be found at <http://www.epa.gov/asbestos>.

DATES: Comments must be received on or before October 23, 2006.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2006-0398, by one of the following methods.

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail.* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- *Hand Delivery:* OPPT Document Control Office (DCO), EPA East, Rm.

6428, 1201 Constitution Ave., NW., Washington, DC. Attention: Docket ID Number EPA-HQ-OPPT-2006-0398. The DCO is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the DCO is (202) 564-8930. Such deliveries are only accepted during the DCO's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to docket ID number EPA-HQ-OPPT-2006-0398. EPA's policy is that all comments received will be included in the public docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or e-mail. The [regulations.gov](http://www.regulations.gov) website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the [regulations.gov](http://www.regulations.gov) index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically at <http://www.regulations.gov>, or in hard copy at the OPPT Docket, EPA Docket Center (EPA/DC), EPA West, Rm. B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone
