

is based on (and virtually identical to) CBOE Rule 6.48(b)(ii), which permits cancellation of the options leg of a stock-option order.⁵

It is important to note that the proposed rule change would require that the CHX floor participant maintain records "sufficient to establish that market conditions in a non-Exchange market prevented the execution of the option leg(s)." The CHX believes this requirement would give the CHX Department of Market Regulation the ability to oversee the cancellation of stock leg orders, to ensure against abusive trade reporting practices.⁶

2. Statutory Basis

The Exchange believes that its proposal, as amended, is consistent with Section 6(b) of the Act⁷ in general, and furthers the objectives of Section 6(b)(5) of the Act⁸ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest by promoting consistency between the Exchange and options markets relating to cancellation of the components of stock-option orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change, as amended, would impose any burden on competition.

execution of the options leg at the agreed upon price.

⁵ According to CHX, the stock leg of a stock-option order is always presented to the CHX with an identified buyer and seller who have agreed to the terms of the trade. Both buyer and seller are aware of the possibility that the stock leg of a stock-option order may be cancelled on the CHX if the corresponding options leg is cancelled on an options market. The CHX states that, because both the buyer and seller would be identified when the stock leg is presented to the CHX, there would be no possibility that another CHX member's order could be matched against a stock-option order. Accordingly, the CHX believes that there would be no risk that an investor's order could be involuntarily cancelled without notice to the investor; the CHX thus believes that this pattern and practice amply satisfies the requirements of proposed Interpretation and Policy .01(d).

⁶ The recordkeeping requirement would permit the CHX Department of Market Regulation to monitor patterns that may develop, as well as the overall quantity of trade cancellations, to help deter members from simply canceling orders for the sake of convenience. The Exchange believes that the recordkeeping requirement would help ensure that the volume of transactions reported is accurate and complete and not overstated.

⁵ Changes are marked to the rule text that appears in the electronic NASD Manual found at <http://www.nasd.com>, as amended by SR-NASD-2006-013 (January 30, 2006). The NASDAQ Stock Market LLC ("NASDAQ LLC") will not file conforming changes to its rules with regard to order execution and routing by non-members, since persons that are not members of NASDAQ LLC will not be permitted to use its order execution and routing systems.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change, as amended, and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq is reducing its fees for market participants routing orders from its three trading platforms—the Nasdaq Market Center, Brut, and Inet—to the American Stock Exchange ("Amex"). Specifically, whereas Nasdaq previously charged \$0.01 per share executed for routing such orders, the fee is be reduced to \$0.003 per share executed. However, an additional fee of \$0.01 will be charged in cases where the Amex specialist charges a fee to execute the order (which generally occurs when the order remains on the specialist book for more than a certain amount of time before being executed).

Nasdaq is also broadening the conditions under which a market participant may qualify for a reduced fee of \$0.0028 per share executed to access liquidity and route orders in Nasdaq-listed securities and exchange-traded funds. Currently, market participants qualify for the \$0.0028 fee (a reduction from the otherwise applicable fee of \$0.003 per share executed) if they (i) provide a daily average of more than 30 million shares of liquidity during a month and (ii) access and/or route a daily average of more than 50 million shares of liquidity during a month. With the proposed rule change, the reduced fee would also be available to market participants that (i) provide a daily average of more than 20 million shares of liquidity during a month and (ii) access and/or route a daily average of more than 60 million shares of liquidity during a month. Thus, the change will broaden the availability of the reduced fee to market participants that provide comparatively less liquidity but access and/or route comparatively more liquidity.

Nasdaq is also adding rule text to clarify the application of its current fee

schedule to orders that are entered into Brut or Inet, routed to the Nasdaq Market Center for execution, and then delivered for execution to an ECN that receives orders through the order delivery functionality of the Nasdaq Market Center. Because the current fee schedule is ambiguous as to the treatment of such orders, Nasdaq believes that the rule text should be clarified to reflect Nasdaq's interpretation of the fee schedule. Because the orders are transmitted using Brut/Inet routing technology and then transmitted again for execution through the systems of a third party, Nasdaq believes that it is most appropriate to categorize these orders as routed orders. Accordingly, routing fees, which range from \$0.001 to \$0.004 per share executed, apply rather than order execution or delivery fees.

SR-NASD-2006-057⁶ applied these changes to NASD members on an immediately effective basis. Nasdaq is submitting this filing to apply these changes to non-members, who Nasdaq anticipates will be allowed to continue to use the Brut and Inet facilities until NASDAQ LLC begins to operate as a national securities exchange.

2. Statutory Basis

Nasdaq believes that the proposed rule change, as amended, is consistent with the provisions of Section 15A of the Act,⁷ in general, and with Section 15A(b)(5) of the Act,⁸ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the NASD operates or controls.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change, as amended, will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

Copies of such filing also will be available for inspection and copying at the principal office of the NASD. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASD-2006-058 and should be submitted on or before August 17, 2006.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a self-regulatory

organization.⁹ Specifically, the Commission believes that the proposed rule change, as amended, is consistent with Section 15A(b)(5) of the Act,¹⁰ which requires that the rules of the self-regulatory organization provide for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facilities or system which it operates or controls.

The Commission notes that this proposal would retroactively modify pricing for non-NASD members using the Nasdaq Market Center and Nasdaq's Brut and INET Facilities that would permit the schedule for non-NASD members to mirror the schedule applicable to NASD members that became effective May 1, 2006, pursuant to SR-NASD-2006-057.

The Commission finds good cause for approving the proposed rule change, as amended, prior to the 30th day of the date of publication of the notice thereof in the **Federal Register**. The Commission notes that the proposed fees for non-NASD members are identical to those in SR-NASD-2006-057, which implemented those fees for NASD members and which became effective as of May 1, 2006. The Commission notes that this change will promote consistency in Nasdaq's fee schedule by applying the same pricing schedule with the same date of effectiveness for both NASD members and non-NASD members. Therefore, the Commission finds that there is good cause, consistent with Section 19(b)(2) of the Act,¹¹ to approve the proposed rule change, as amended, on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹² that the proposed rule change, as amended, (File No. SR-NASD-2006-058) is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³
