

*Description of respondents:* The respondents are owners of historic buildings, or qualified long-term lessees. The number of respondents is estimated to be 4000 per year. The frequency of response is on occasion, as requested by owners of buildings (one response per respondent). Application for Federal historic preservation tax incentives is voluntary.

*Estimated annual reporting burden:* 80,000 hours for an estimated 4,000 applications total, broken down as follows: Part 1 application: Approximately 14.1 hours per Part 1 × 1834 applications = 25,859 hours; Part 2 application: Approximately 36.6 hours per application × 1224 applications = 44,798 hours; Part 3 application: approximately 8.9 hours per application × 861 applications = 7,663. This totals 78,320, based on a total of 3919 Part 1s, Part 2s, and Part 3s, or 20 hours average for each. At approximately 4000 applications per year (project agency totals for coming years), the estimated total burden is 80,000.

*Estimated average burden hours per response:* Depending on which form is used, the average burden hours per response can vary considerably because of the wide range of activities described in each application. In general, the average burden hours range from 14 hours for a Part 1 describing a historic building to approximately 37 hours for a Part 2 application describing rehabilitation work to be undertaken.

*Estimated average number of respondents:* 4000.

*Estimated frequency of response:* the 4000 "responses" are submitted on occasion, as owners of historic buildings apply for certifications from the Secretary of the Interior.
