Administration**

[Docket No. FMCSA-2006-23781]

**Agency Information Collection
Activities; Request for Comment;
Approval of a New Information
Collection: Letter of Confirmation and
Carrier Contact Information Sheets****AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.**ACTION:** Notice and request for comments.

SUMMARY: FMCSA invites public comment on its plan to request the Office of Management and Budget's (OMB) approval to collect information on new forms entitled "Carrier Contact Information Sheets." The information will be collected from United States and Canada-based motor carriers through the use forms, and used by FMCSA Safety Auditors and Safety Investigators to prepare in advance for Compliance Reviews (CRs) and New Entrant Program Safety Audits (NEPSAs); Pre-authority Safety Audits (PASAs) and CRs of certain Mexico-domiciled motor carriers; and NEPSAs and CRs of Non-North American motor carriers. FMCSA conducts CRs to determine motor carrier compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and other regulations overseen by FMCSA. In accordance with section 350 of the 2002 DOT Appropriations Act and the Agency's regulations, all Mexico-domiciled long-haul carriers must successfully complete a PASA before receiving authority to operate in the United States and must receive a CR within their first 18 months of operations in the United States. All other motor carriers receive CRs to determine their safety fitness.

FMCSA conducts NEPSAs in accordance with section 210 of the Motor Carrier Safety Improvement Act of 1999, which requires safety reviews of all new entrants during their first 18 months of operations.

The information collected from motor carriers will be used to assist safety investigators to become familiar with the motor carrier's operation prior to visiting the carrier's place of business. The information collected will include, but is not limited to, company information and contact persons, business type, insurance, type of cargo transported, vehicle and driver information and controlled substance testing information. Additional information will be collected from carriers who transport hazardous

materials, household goods, and passengers or are domiciled in Mexico. This notice is required by the Paperwork Reduction Act of 1995.

DATES: Comments must be submitted on or before June 12, 2006.

ADDRESSES: All comments should reference Docket No. FMCSA-2006-23781. You may mail or hand deliver comments to the U.S. Department of Transportation, Dockets Management Facility, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590; telefax comments to (202) 493-2251; or submit electronically at <http://dms.dot.gov>. You may examine and copy all comments received at the above address between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. SUPPLEMENTARY INFORMATION: Title: Carrier Contact Information Sheets.

OMB Control No: 2126-XXXX.

Background:

In 1999, the Motor Carrier Safety Improvement Act of 1999 (MCSIA) [Public Law 106-159, 113 Stat. 1748 (December 9, 1999)] strengthened the motor carrier safety program by mandating more vehicle and driver inspections, and carrier compliance reviews. MCSIA also required safety reviews of all new entrants during the first 18 months of operations. Section 350 of the DOT Appropriations Act for Fiscal Year 2002 [Public Law 107-87, 115 Stat. 864 (December 18, 2001)] further strengthened the safety program for motor carriers by requiring safety audits of long-haul Mexico-domiciled carriers before they receive operating authority in the United States.

FMCSA conducts compliance reviews to ensure that motor carriers comply with the FMCSRs. To facilitate the timely completion of the compliance reviews in the future, FMCSA safety investigators will use the following two forms to collect information from motor carriers prior to conducting compliance reviews.

A "Letter of Confirmation," will be used by the safety investigator to confirm an appointment with a carrier once a compliance review has been scheduled. The letter further informs the carrier the investigator will need access to all carrier records including, but not limited to, the following:

- A list of drivers used in the past 365 days, including date of hire, date of termination, Commercial Driver's License (CDL) State and license number, and date of birth;

- Driver qualification files and controlled substance testing records results and summaries for the past 365 days;

- Carriers of household goods must also provide all documents related to the movement of household goods, including estimates, orders for service, bills of lading, inventories, invoices and weight tickets.

- Carriers of hazardous materials must also provide, if applicable: a copy of the company's security plan; a list of any hazardous materials (HM or hazmat) incident(s) that may have occurred in the past 12 months (including spills, injuries or any type of release); HM shipping papers for the past 12 months; records related to the training of all hazmat employees and all documentation regarding the testing of any applicable specification cargo tanks.

Form MCSA-5540, "Carrier Information," will be used for the collection of information from all motor carriers subject to the Federal Motor Carrier Safety Regulations. The
