BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Canadian National Railway Company

[Waiver Petition Docket Number FRA–2006–24224]

The Canadian National Railway Company (CN) on behalf of its wholly owned subsidiaries, Illinois Central Railroad Company, Wisconsin Central, Ltd, Grand Trunk and Western Railroad Company, Chicago Central & Pacific Railroad Company, Duluth, Winnipeg & Pacific Railroad Company, Bessemer & Lake Erie Railroad Company, and the Duluth Missabe & Iron Range Railroad Company (hereinafter "CN") seeks a waiver of compliance with the Locomotive Safety Standards, 49 CFR, 229.27(a)(2), and 229.29 (a), as they pertain to the requirement to clean, repair, and test airbrake equipment associated with "Canac" remote control

equipment installed on the locomotive. CN requests to change the time interval requirements for the additional Canac equipment from biennial (736 days) to every 4 years (1472 days).

The request, if granted, would allow the additional Canac equipment to receive attention at the same time as the 26 L type brake equipment previously wavered under the petition identified as docket number FRA–2005–21325. According to the petitioner, the four-year maintenance period for the remote control brake equipment is the manufacturer's recommendation, and the four-year interval has been adopted by Transport Canada, as required maintenance interval for 26 L type Canac remote control locomotives operating in Canada.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA–2006–24224) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL–401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the

name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477–78). The Statement may also be found at <http://dms.dot.gov>.

Issued in Washington, DC on March 31, 2006.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

East Broad Top Railroad & Coal Company

[Waiver Petition Docket Number FRA–2006–24069]

The East Broad Top Railroad & Coal Company (EBT), located in Rockhill Furnace, PA, seeks a waiver of compliance from the Steam Locomotive Inspection and Maintenance Standards [49 CFR Part 230.17(a)] for steam locomotive number EBT 14, which requires "Before any steam locomotive is initially put in service or brought out of retirement, and after every 1472 service days or 15 years, whichever is earlier, an individual competent to conduct the inspection shall inspect the entire boiler. In the case of a new locomotive or a locomotive being

brought out of retirement, the initial 15 year period shall begin on the day that the locomotive is placed in service or 365 calendar days after the first flue tube is installed in the locomotive, whichever comes first. This 1472 service day inspection shall include all annual, and 5th annual, inspection requirements, as well as any items required by the steam locomotive owner and/or operator or the FRA inspector. At this time, the locomotive owner and/or operator shall complete, update and verify the locomotive specification card (FRA Form No. 4), to reflect the condition of the boiler at the time of this inspection. See appendices A and B of this part."

EBT requests a temporary waiver for one year for steam locomotive number EBT 14. If the waiver is granted, the railroad will be able to use locomotive number 14, which has never received a 1472 service day inspection, as a replacement locomotive in the event locomotive number 15, which is in compliance with Steam Locomotive Inspection and Maintenance Standards, becomes disabled. EBT also requests the use of locomotive number EBT 14 for an additional eight special event days in 2006. Prior to 2002, locomotive number EBT 14 was maintained under the jurisdiction of the Pennsylvania State boiler inspector. Pennsylvania State regulations do not require a 1472 service day inspection.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2006-24069) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet

at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Norfolk Southern Corporation

(Waiver Petition Docket Number FRA-2006-24215)

The Norfolk Southern Corporation (NS) seeks a waiver of compliance with the *Locomotive Safety Standards*, 49 CFR 229.23, 229.27, and 229.29, as they pertain to the requirement to maintain the locomotive repair record form FRA 6180.49A, commonly referred to as the Blue Card, in the cab of their locomotives. If granted, NS would maintain locomotive inspection information in a secure database. The database would be maintained as the required office copy of form FRA 6180.49A. A computer generated form, which is similar to and contains all information currently contained on the required FRA 6180.49A, would be maintained on board the locomotive. In place of required signatures of persons performing inspections and tests, NS employees would be provided a unique login identification number and a secure password to access the system and

verify performance of inspections. In place of signatures, a computer generated report would block print the name of the employee performing a required inspection and block print the employees' supervisor who is certifying that all inspections have been made and all repairs were completed. Required filing of the previous inspection record will be maintained through the database.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2006-24215) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590.
