**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*Affected Entities:* Tribes that are eligible to receive grants under Section 106 of the Clean Water Act.

**II. Background**

Over the past 10 years, funding available for Section 106 grants to Indian Tribes has increased from \$3 million to \$25 million per year. This Guidance more clearly defines expectations and requirements for Tribal Section 106 grant recipients and provides a framework for evaluating program results. This document is an effort to provide unified guidance that helps Tribes develop and implement water quality programs and defines what EPA expects from Tribal programs. It provides an overview of all programmatic and technical requirements, discusses common considerations across programs and links to technical resources available to develop Tribal programs. This document outlines new reporting requirements and data management expectations for all Tribal programs receiving Section 106 funds. Data collected as a result of the new reporting requirements will help EPA measure environmental results of the Section 106 Tribal Program and comply with the Government Performance and Results

Act (GPRA) and other Federal mandates. EPA published a Notice of Availability regarding a draft version of this Guidance on April 27, 2006 (71 FR 24852). The Agency provided a sixty-day public comment period, in which more than two-hundred comments were received. These comments encompassed four major areas: (1) Monitoring/data reporting (including STORET-related issues); (2) funding (including EPA's future plans with respect to linking Section 106 funding to the various Tribal program activity levels outlined within the Guidance document); (3) training/technical assistance; and (4) miscellaneous comments (i.e., Guidance implementation issues and aligning the Guidance to the Agency's Strategic Plan). As a result of these comments, various communication efforts were undertaken in order to effectively and efficiently provide resolution. Responding to these comments, EPA made minor changes to the actual Guidance text. The Agency has developed a comprehensive Response to Comments (RTC) document outlining details of submitted comments and their associated responses. This document also provides specific locations of the actual Guidance text that have been modified and outlines the exact modifications that were made. This RTC document and final Guidance can be found at the Environmental Protection Agency's Web site at <http://www.epa.gov/owm/cwfinance/106tgg07.htm>, or by contacting the point of contact listed under the section entitled **FOR FURTHER INFORMATION CONTACT**.

**III. Statutory and Executive Order Reviews**

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to OMB review. Because this grant action is not subject to notice and comment requirements under the Administrative Procedures Act or any other statute, it is not subject to the Regulatory Flexibility Act (5 U.S.C. 601 et.) or sections 202 and 205 of the Unfunded Mandates Reform Act of 1999 (UMRA) (Pub. L. 104-4). In addition, this action does not significantly or uniquely affect small governments. Although this action does not generally create new binding legal requirements, where it does, such requirements do not substantially and directly affect Tribes under Executive Order 13175 (63 FR 67249, November 9, 2000). Informal consultation has been conducted with Tribes, and a formal comment period was also provided. This action will not have federalism

implications, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action is not subject to Executive Order 13211, "Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001), because it is not a significant regulatory action under Executive Order 12866. This action does not involve technical standards; thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before certain actions may take effect, the agency promulgating the action must submit a report, which includes a copy of the action, to each House of the Congress and to the Comptroller General of the United States. Since this grant action contains legally binding requirements, it is subject to the Congressional Review Act, and EPA will submit this final Guidance in its report to Congress under the Act.

Dated: October 13, 2006.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a premanufacture notice (PMN) or an application for a test marketing exemption (TME), and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which

covers the period from September 18, 2006 to September 30, 2006, consists of the PMNs pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

**DATES:** Comments identified by the specific PMN number or TME number, must be received on or before November 20, 2006.

EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or e-mail. The [regulations.gov](http://www.regulations.gov) website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov) your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD ROM

you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

**Docket:** All documents in the docket are listed in the [regulations.gov](http://www.regulations.gov) index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. EPA visitors are required to show photographic identification and sign the EPA visitor log. Visitors to the EPA/DC Public Reading Room location will be provided with an EPA/DC badge that must be visible at all times while in the EPA Building and returned to the guard upon departure. In addition, security personnel will escort visitors to and from the new EPA/DC Public Reading Room location. Up-to-date information about the EPA/DC is on the EPA web site at <http://www.epa.gov/epahome/dockets.htm>.
