FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

April 14, 2006.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 24, 2006. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or an e-mail to PRA@fcc.gov. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pra>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0718.

Title: Part 101, Governing the Terrestrial Microwave Fixed Radio Service.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 10,000 respondents; 6,364 responses.

Estimated Time per Response: .25-3 hours.

Frequency of Response: On occasion and every 10 year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 36,585 hours.

Total Annual Cost: \$474,000.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this information collection to OMB as a revision in order to obtain the full three-year clearance from them. Part 101 requires various information to be filed and maintained by the respondent to determine the technical, legal and other qualifications of applications to operate a station in the public and private operational fixed services. The information is also used to determine whether the public interest, convenience, and necessity are being served as required by 47 U.S.C. 309. The Commission staff also uses this information to ensure that applicants and licensee comply with ownership and transfer restrictions imposed by 47 U.S.C. 310. The Appendix attached to the OMB submission lists the rules in Part 101 that impose reporting, recordkeeping and third party disclosure requirements. The Commission revised this information collection to remove Part 101 rule sections that have no PRA implications. The total annual burden hours and costs have been modified accordingly.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

Submission for OMB Review; Comment Request

Title: Follow-Up Study of Issues Affecting the Duration of Child Care Subsidy Use.

OMB No.: New Collection.

Description: Child care subsidies provide an important benefit to low-income working families, offering them increased access to forms of child care that would otherwise be beyond their means. However, recent research suggests that, for many families, this benefit may be short-lived or unstable. There are many possible explanations for these patterns, and the explanations may be different for different types of families. Recognizing that information about the reasons for short subsidy duration would be helpful to States, the Child Care Bureau has funded Abt Associates Inc. to conduct a two-State investigative study on the duration and use of child care subsidies. This study will, in the short term, provide States with information to shape or modify their child care subsidy procedures. In addition, the study will generate hypotheses that could be systematically tested in later research.

The study will examine the use of child care subsidies by 840 families in Illinois and 840 in Oregon. In each State, the sample will be a representative sample of current Temporary Assistance for Needy Families (TANF) families and non-TANF families—all of whom apply and are approved for subsidies and who use them for at least one month. Families will be contacted by telephone approximately nine months after they

began using subsidies and will be asked to participate in the study. If they agree, a 45-minute telephone interview will ensue immediately or will be scheduled. It is expected that, after the nine months, over half of the families will no longer be using subsidies. Patterns of subsidy use prior to and during the study period will be tracked through State administrative data.

The parent telephone interview will include questions about parents' employment, subsidy status and experience, child care usage, and changes in household composition over the nine-month period. Although the analyses will rely heavily on identification of trigger events, the survey will include questions about other less tangible considerations that may have influenced the duration of parents subsidy use. Telephone interviews will be conducted using Computer-Assisted-Telephone Interviewing (CATI). Responses are voluntary and confidential.

The study will also analyze State administrative data on all families who are approved for subsidies during the recruitment period for the study. This will allow researchers to assess the generalizability of the sub-sample of families who are recruited for the in-depth telephone interview; this sub-sample consists of approximately 840 families in each State.

No existing data sources can provide all the information needed to complete the Follow-Up Study of Issues Affecting the Duration of Child Care Subsidy Use. These data will help the Child Care Bureau and States to better understand reasons for short child care subsidy duration.

Respondents: The sample includes 840 families in Illinois and 840 in Oregon.
