**Abstract:** The General Services Administration (GSA) Office of Governmentwide Policy continually reviews and adjusts policies as a part of its ongoing mission to provide policy assistance to the Government agencies bound by the Federal Travel Regulation (FTR). As part of that ongoing mission, GSA created the Relocation Best Practices Committee (RBPC) to examine Government relocation policy. The RBPC consists of Government as well as private sector relocation experts. The RBPC researched and produced a complete package of relocation changes that included both statutory as well as regulatory elements. The proposed FTR changes are the result of RBPC recommendations, benchmarking against private industry, and GSA, representing Governmentwide policy needs. The proposed changes are intended to keep Government relocation practices in line with current relocation trends and allow for better management of the Government relocation programs including costs.

REGULATION (GSAR) CASE  
2005-G501; FEDERAL AGENCY  
RETAIL PHARMACY PROGRAM**

**Priority:** Other Significant

**Legal Authority:** 40 USC 121(c)

**CFR Citation:** 48 CFR 538; 48 CFR 552

**Legal Deadline:** None

**Abstract:** The General Services  
Administration (GSA) is proposing to  
amend the General Services Acquisition  
Regulation (GSAR) to add a new  
subpart and clause required by the  
Department of Veterans Affairs (VA),  
consistent with congressional intent  
under section 603 of the Veterans  
Health Care Act of 1992 (VHCA) and  
38 U.S.C. 8126, that certain Federal  
agencies (i.e., VA, Department of  
Defense (DoD), Public Health Service  
(including the Indian Health Service),  
and the Coast Guard) have access to  
Federal pricing for pharmaceuticals  
purchased for their beneficiaries.  
GSA is responsible for the schedules  
program and rules related to its  
operation. Under GSA's delegation of  
authority, the VA procures medical  
supplies under the VA Federal Supply  
Schedule program. VA and DoD seek  
this amendment. This new subpart  
adds a clause unique to the virtual  
depot system established by a Federal  
Agency Retail Pharmacy Program  
utilizing contracted retail pharmacies as  
part of a centralized pharmaceutical  
commodity management program. At  
this time, only DoD has a program in  
place, and the rule would facilitate  
DoD's access to Federal pricing on  
Federal Supply Schedule (FSS)  
pharmaceutical contracts for covered  
drugs purchased by DoD and dispensed  
to TRICARE beneficiaries through retail  
pharmacies in the TRICARE network.

**Abstract:** The General Services Administration is proposing to amend the Federal Property Management Regulations (FPMR) by revising coverage on utilization, donation, or disposal of abandoned and forfeited personal property and moving it into the Federal Management Regulation (FMR). A cross-reference is added to the FPMR to direct readers to the coverage in the FMR. The FMR coverage is written in plain language to provide agencies with updated regulatory material that is easy to read and understand.

**Abstract:** The interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, revised FPMR 101-9 and moved it into the Federal Management Regulation at 102-192. The new rule, rewritten in plain language, established four requirements at the agency level. Specifically, all agencies must (1) have written security plans at the agency and facility level; (2) ensure that mail costs are identified at the program level; (3) ensure that all payments to the United States Postal Service are made using commercial payment processes (i.e., not using the Postal Service's Official Mail Accounting System)—the effective date of this requirement will be October 1, 2003; and (4) have performance measures for mail operations. In addition, the new rule requires all agencies that spend over \$1 million per year on postage to send GSA an annual report that states the total amounts spent on postage, verifies that facility security plans have been reviewed at the agency level, identifies performance measures in use, and describes the agency's plans to improve the efficiency and effectiveness of their mail operations.

This second interim rule amended the Federal Management Regulation (FMR) to extend the deadline for agencies to convert to commercial payment to the

United States Postal Service instead of the Official Mail Accounting System (OMAS). This rule amended the interim rule published in the Federal Register at 67 FR 38896, June 6, 2002, to reflect the extension of the deadline from October 1, 2003, to December 31, 2003.

**3335. FEDERAL MANAGEMENT REGULATION; MOTOR VEHICLE MANAGEMENT**

**Priority:** Substantive, Nonsignificant

**Legal Authority:** 40 USC 121(c)

**CFR Citation:** 41 CFR 102-34

**Legal Deadline:** None

**Abstract:** An amendment to FMR 102-34 has been drafted to incorporate recent changes in the program. The significant changes proposed are:

1. The Fleet Average Fuel Economy Standards for FY 2000 and beyond is 20.7 miles per gallon for light trucks.
2. Motor vehicle identification requirements will be changed. All required identifiers are now to be on the license plate: "For Official Use Only, U.S. Government," and Federal agency or bureau identification.

Previously, the identifiers were on decals that were placed on the vehicles. A waiver is currently allowing agencies to deviate from the decal requirement. GSA intends to amend the FMR to reflect the practice currently permitted under the waiver.

3. UNICOR is the mandatory supplier of official U.S. Government license plates. Lorton Prison in Virginia, the supplier of license plates for a number of years, is closed. The GSA Federal Vehicle Policy Division (MTV) initiated a Memorandum of Understanding (MOU) with UNICOR to provide license plates to all Federal agencies.

4. A letter code on the license plate now identifies a specific agency's vehicles. For example, the letter G designates GSA Fleet.

5. The Federal Management Regulation includes a provision under which the head of an agency (or designee) may authorize a limited exemption to the display of U.S. Government license plates and motor vehicle identification upon written certification. Motor vehicles used for common administrative purposes and not directly connected to investigative, law enforcement, or intelligence duties involving security activities are ineligible for this exemption. A deviation was granted after the events of September 11, 2001, to remove the restriction as to motor vehicles used for administrative purposes. GSA intends to amend the FMR to reflect the practice currently permitted under the deviation.

6. The Federal Motor Vehicle Fleet Report. This reporting is now accomplished through the Federal Automotive Statistical Tool (FAST). FAST is an Internet-based reporting system used by GSA and the Department of Energy to capture motor vehicle inventory, cost, fuel, and use data from all Federal agencies.

7. Agencies must have an agency-wide fleet management information system that will link all fleet data throughout the agency and interface with the FAST.
