**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of Limitation on Claims for Judicial Review of Actions by FHWA and other Federal agencies.

**SUMMARY:** This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(1)(1). These actions relate to a proposed highway project on State Route 65 Lincoln Bypass between kilo post 19.3 to 38.3 (post miles 12.0 to 23.8) in Placer County, State of California. These actions grant approvals for the project.

**DATES:** By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(1)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or April 2, 2007. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

**[Docket No. NHTSA-2006-25903; Notice 1]**

**BMW of North America, LLC, Receipt of Petition for Decision of Inconsequential Noncompliance**

BMW of North America, LLC (BMW) has determined that certain vehicles that it produced in 2005 and 2006 do not comply with S4.5.1(b)(3) and S4.5.1(e)(3) of 49 CFR 571.208, Federal Motor Vehicle Safety Standard (FMVSS) No. 208, "Occupant crash protection." BMW has filed an appropriate report

pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

Pursuant to 49 U.S.C. 30118(d) and 30120(h), BMW has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of BMW's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Affected are a total of approximately 27,975 model year 2006 BMW X5 vehicles produced between September 1, 2005 and June 28, 2006. The affected vehicles were produced according to FMVSS No. 208 S14, the advanced air bag requirements including air bag suppression and telltale. However, the affected vehicles were not equipped with the corresponding warning labels, specifically the FMVSS No. 208 S4.5.1(b)(3) sun visor label identified in Figure 11, and the S4.5.1(e)(3) removable label on dash identified in Figure 12. Instead, the affected vehicles were equipped with the "pre-advanced" air bag warning labels, specifically the FMVSS No. 208 S4.5.1(b)(1) sun visor label identified in Figure 6a, and the S4.5.1(e)(1) removable label on dash identified in Figure 7. This is shown as follows:

**SUN VISOR LABEL**

Required label: S4.5.1(b)(3) Figure 11	Noncompliant label: S4.5.1(b)(1) fig. 6a
WARNING EVEN WITH ADVANCED AIR BAGS ..... Children can be killed or seriously injured by the air bag ..... The back seat is the safest place for children ..... Never put a rear-facing child seat in front ..... Always use seat belts and child restraints ..... See owner's manual for more information about air bags .....	WARNING DEATH or SERIOUS INJURY can occur. Children 12 and under can be killed by the air bag. The BACK SEAT is the SAFEST place for children. NEVER put a rear-facing child seat in front. ALWAYS use SEAT BELTS and CHILD RESTRAINTS. Sit as far back as possible from the air bag.

**REMOVABLE LABEL ON DASH**

Required label: S4.5.1(e)(3) figure 12	Noncompliant label: S4.5.1(e)(2) figure 7
This Vehicle is Equipped with Advanced Air Bags ..... Even with Advanced Air Bags. Children can be killed or seriously injured by the air bag ..... The back seat is the safest place for children ..... Never put a rear-facing child seat in the front. Always use seat belts and child restraints ..... See owner's manual for more information about air bags.	WARNING. Children Can be KILLED or INJURED by Passenger Air Bag. The back seat is the safest place for children 12 and under. Make sure all children use seat belts or child seats.

BMW has corrected the problem that caused these errors so that they will not be repeated in future production.

BMW believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. BMW

states that the labels it actually used are "more stringent" and "more emphatic, which would lead a consumer to act in a more cautious manner, and not in a less safe manner." BMW says,

The difference in the warning message texts between the labels clearly indicates that

the warning message on the affected vehicles' labels is stricter when compared to the advanced air bag labels. Therefore, even though the labels are incorrect, they would not result in a decrease in the safety message. Rather, they provide an increased emphasis.
