[Docket No. CP06-454-000]

Natural Gas Pipeline Company of America; Notice of Application for Abandonment

September 25, 2006.

Take notice that on September 14, 2006, Natural Gas Pipeline Company of America (Natural), 747 East 22nd Street, Lombard, Illinois 60148, filed an application pursuant to section 7(b) of the Natural Gas Act (NGA) for authorization to abandon, by long-term operating lease, 360 MDth per day of firm capacity in 25.73 miles of existing pipeline facilities owned by Natural and, specifically, in Natural's 8.43 mile 30-inch North Hayden Lateral, a 10.09 mile portion of Natural's 36-inch Herscher-Dyer Road Pipeline and a 7.21 mile portion of Natural's 36-inch Calumet Pipeline No. 3, all in Kankakee, Will and Cook Counties, Illinois. This application is on file with the Commission and open to public inspection.

Natural states that pursuant to a lease agreement between Natural and Kinder Morgan Illinois Pipeline LLC (KMIP) dated September 12, 2006, Natural has agreed to lease capacity in existing pipeline facilities owned by Natural to KMIP. KMIP's lease of such capacity, in conjunction with its construction of certain pipeline facilities (KMIP Project), is the subject of a separate application being filed concurrently by KMIP.¹

Natural states that the lease of 360 MDth per day of firm capacity by

¹ KMIP is filing concurrently in Docket Nos. CP06-455-000, *et al.* a related application seeking authority to develop and operate a new pipeline system designed to transport gas for The Peoples Gas Light and Coke Company (PGLC), including the lease of capacity in existing facilities owned by Natural.

Natural to KMIP is an integral part of the KMIP Project and will avoid the construction of 25.73 miles of new 30-inch pipeline. By leasing capacity from Natural, KMIP will reduce the overall cost and improve the efficiency of the KMIP Project and will also minimize new pipeline construction and the potential for associated environmental disruption. The design capacity of KMIP's system will be 360 MDth per day. Natural further states that its existing system capacity will not be decreased by the lease, because the proposed location of 2.6 miles of new KMIP pipeline, in relation to the existing pipeline facilities of Natural, both upstream and downstream, will have the operational effect of enhancing the throughput capabilities of such existing Natural facilities.

Natural seeks abandonment authority in the present docket to coincide with the certificate authority requested by KMIP in its separate application.

Any questions regarding this application should be directed to Bruce H. Newsome, Vice President or Phillip R. Telleen, Attorney for Natural Gas Pipeline Company of America, 747 East 22nd Street, Lombard, Illinois 60148 at (630) 691-3526 and (630) 691-3749, respectively.
