Postponement of Preliminary Determination of Antidumping Duty Investigation: Certain Activated Carbon from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: August 2, 2006.

FOR FURTHER INFORMATION CONTACT:

Catherine Bertrand or Carrie Blozy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230; telephone: (202) 482-3207 or (202) 482-5403, respectively.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determination

On March 28, 2006, the Department of Commerce ("Department") initiated the antidumping duty investigation of certain activated carbon from the People's Republic of China. *See Initiation of Antidumping Duty Investigation: Certain Activated Carbon From the People's Republic of China*, 71 FR 16757 (April 4, 2006). The notice of initiation stated that the Department would make its preliminary determination for this antidumping duty investigation no later than 140 days after the date of issuance of the initiation.

On July 21, 2006, Calgon Carbon Corporation and NORIT Americas Inc. ("Petitioners") made a timely request pursuant to 19 CFR 351.205(e) for a fifty-day postponement of the preliminary determination, until October 4, 2006. Petitioners requested postponement of the preliminary determination to allow the Department additional time in which to review the complex questionnaire responses and

issue requests for clarification and additional information.

For the reasons identified by the Petitioners, and because there are no compelling reasons to deny the request, the Department is postponing the preliminary determination under section 733(c)(1)(A) of the Tariff Act of 1930, as amended ("the Act"), by fifty days to October 4, 2006. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to sections 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: July 26, 2006.

David Spooner,

Assistant Secretary for Import Administration.

Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, from the People's Republic of China: Extension of Time Limit for the Final Results of the 14th Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: August 2, 2006.

FOR FURTHER INFORMATION CONTACT:

Nicole Bankhead, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-9068.

SUPPLEMENTARY INFORMATION:

Background

On March 8, 2006, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty order on Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, from the People's Republic of China, covering the period February 1, 2004, through January 31, 2005. *See Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, From the People's Republic of China: Preliminary Results of Administrative Reviews and Preliminary Partial Rescission of Antidumping Duty*

Administrative Reviews, 71 FR 11580 (March 8, 2006).

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), and section 351.213(h)(1) of the Department's regulations, the Department shall issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of the date of publication of the antidumping duty order. The Act further provides that the Department shall issue the final results of a review within 120 days after the date on which the notice of the preliminary results was published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend the 245-day period to 365 days and the 120-day period to 180 days.

On June 9, 2006, the Department extended the deadline for issuing the final results by 25 days, from July 6, 2006, to July 31, 2006. *See Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, from the People's Republic of China: Extension of Time Limit for the Final Results of the 14th Antidumping Duty Administrative Review*, 71 FR 33438 (June 9, 2006). The Department determines that the completion of the final results of this review by the original extended deadline is not practicable. As noted in the first extension notice, the Department requires additional time to analyze comments regarding the four companies involved in the instant review, each of which exported subject merchandise in at least one of the four classes or kinds of merchandise covered by this order, along with complex affiliation and agent sale issues. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of this review by 35 days. Since a 35-day extension would result in the deadline for the final results falling on September 4, 2006, which is a federal holiday, the new deadline for the final results will be the next business day, September 5, 2006. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

This notice is issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: July 26, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 072706C]

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery Off the Southern Atlantic States

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from Scott Baker on behalf of the North Carolina Sea Grant Extension Program. If granted, the EFP would authorize the applicant, with certain conditions, to collect limited numbers of black sea bass in South Atlantic Federal waters off the coast of North Carolina. The purpose of the study is to quantify fish size selectivity by sea bass pot type and determine regulatory discard mortality rates.

DATES: Comments must be received no later than 5 p.m., eastern standard time, on September 18, 2006.

ADDRESSES: Comments on the application may be sent via fax to 727-824-5308 or mailed to: Mark Sramek, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701. Comments may also be submitted by E-mail. The mailbox address for providing E-mail comments is *Black.Sea.Bass@noaa.gov*. Include in the subject line of the E-mail document the following text: Comment on NC Sea Grant EFP Application. The application and related documents are available for review upon written request to the address above or the E-mail address below.

FOR FURTHER INFORMATION CONTACT: Mark Sramek, 727-824-5311; fax 727-824-5308; E-mail: *Mark.Sramek@noaa.gov*.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at

50 CFR 600.745(b) concerning exempted fishing.

According to the applicant, the North Carolina Sea Grant Extension Program receives federal funding through the National Sea Grant College Program, as well as state appropriations. Through research, education and outreach programs, North Carolina Sea Grant works with individuals, groups, government agencies and businesses to develop an understanding of the state's coastal environment and promote the sustainable use of marine resources.

The proposed collection for scientific research involves activities otherwise prohibited by regulations implementing the Fishery Management Plan for the Snapper-Grouper Fisheries of the South Atlantic Region (FMP).

The applicant requires authorization to harvest and possess black sea bass for scientific research activities during the period from October 1, 2006, through March 31, 2007. Specimens would be collected from Federal waters off the coast of North Carolina during the specified sampling period. Fish would be captured using standard and experimental modification designs to Council-approved sea bass pots used for the harvest of black sea bass in the South Atlantic region.

Three types of sea bass pots would be employed during the study: One standard-type pot constructed of 1.5-inch (3.8-cm) mesh with a 2-inch (5.1-cm) mesh back panel; a second, experimental-type pot constructed entirely of 2-inch mesh (5.1-cm) (both pot types are currently approved by the South Atlantic Fishery Management Council (Council) for commercial fishing for black sea bass); the third, control-type pot constructed entirely of 1.5-inch (3.8-cm) mesh with no escape vents. The purpose of the control-type pot is to provide an indication of the number and range of size classes of black sea bass present at each sample location. To avoid continued fishing activity and subsequent fish mortality in the event of lost pots, all three pot types will include a wire panel affixed with degradable fasteners. Control-type pots, as outlined above, will only be employed as part of this study and will not be utilized during normal commercial fishing operations. The study will employ a randomized fishing location design, or block, of three sea bass pots per block (one control-type, an experimental-type, and standard-type pots) within 10 blocks per trip.

Individual pots will be randomly placed approximately 10 to 30 meters apart within each block; a total of 13 sampling trips will be performed from October 1, 2006, through March 31, 2007. All

captured fish will be identified by species, measured, and released if undersized. Prior to release, the presence of barotraumatic effects on black sea bass will be recorded. No undersized fish will be retained in this study.

NMFS finds that this application warrants further consideration. Based on a preliminary review, NMFS intends to issue an EFP. Possible conditions the agency may impose on this permit, if it is indeed granted, include but are not limited to: Reduction in the number of sea bass pots to be employed; restrictions on the placement of sea bass pots; prohibition of the harvest of any fish with visible external tags; and specification of locations, dates, and/or seasons allowed for collection of particular fish species. A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, consultations with the affected states, the Council, and the U.S. Coast Guard, and a determination that it is consistent with all applicable laws. The applicant requests a 6-month effective period for the EFP.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 28, 2006.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Small Takes of Marine Mammals Incidental to Specified Activities; Movement of Barges through the Beaufort Sea between West Dock and Cape Simpson or Point Lonely, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of an incidental harassment authorization.

SUMMARY: In accordance with regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that an Incidental Harassment Authorization (IHA) to take small numbers of marine mammals, by harassment, incidental to conducting a barging operation within the U.S. Beaufort Sea has been issued to FEX
