Additionally, the area within the Monterey Bay National Marine Sanctuary (MBNMS) north of the San Mateo/Santa Cruz county boundary is administered by the GFNMS. The legal boundaries of each sanctuary remain as is. The GFNMS is responsible for developing and managing most sanctuary programs within this area, with the exception that the MBNMS is responsible for the Water Quality Protection Program.

The GFNMS Advisory Council was originally chartered in 2001, with seven voting members. It has recently been expanded to 12 voting members. The primary focus of the Council is to advise the Sanctuary Manager regarding the implementation of the sanctuary management plan, in conjunction with the contiguous Monterey Bay and Cordell Bank National Marine Sanctuaries.

Patent applications that contain nucleotide and/or amino acid sequence disclosures must include a copy of the sequence listing in accordance with the requirements in 37 CFR 1.821-1.825. The rules of practice require applicants to submit these sequence listings in a standard international format that is consistent with World Intellectual Property Organization (WIPO) Standard ST.25 (1998).
