

sites by Zodiac (rubber raft) or helicopter for approximately two to four hours at a time. On each helicopter's landing, emergency gear would be taken ashore in case weather deteriorates and passengers are required to camp on shore. Anything taken ashore will be removed from Antarctica and disposed of in Ushuaia, Argentina, Port Stanley, Falkland Islands, or a substitute port of disembarkation. No hazardous domestic products or wastes (aerosol cans, paints, solvents, etc.) will be brought ashore. Cooking stoves/fuel will be used only in an emergency where passengers are forced to spend night on shore. Conditions of the permit would include requirements to report on the removal of materials and any accidental releases, and management of all waste, including human waste, in accordance with Antarctic waste regulations.

Application for the permit is made by: Pat Shaw, President, Quark Expeditions, Inc., 1019 Boston Post Road, Darien, CT 06820.

Location: Antarctica (south of 60 degrees south latitude).

Dates: October 1, 2006 to March 31, 2009.

Nadene G. Kennedy,

Permit Officer.

Astronomy and Astrophysics Advisory Committee #13883; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following Astronomy and Astrophysics Advisory Committee (#13883) meeting:

Date and Time: October 12-13, 2006, 8:30 a.m.-5 p.m.

Place: National Science Foundation, Room 1235, Stafford I Building, 4201 Wilson Blvd., Arlington, VA 22230.

Type of Meeting: Open.

Contact Person: Dr. G. Wayne Van Citters, Director, Division of Astronomical Sciences, Suite 1045, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: 703-292-4908. Additional information is available at www.nsf.gov/mps/ast/aaac.jsp.

Purpose of Meeting: To provide advice and recommendations to the National Science Foundation (NSF), the National Aeronautics and Space Administration (NASA) and the U.S. Department of Energy (DOE) on issues within the field of astronomy and astrophysics that are of mutual interest and concern to the agencies.

Agenda: To hear presentations of current programming by representatives from NSF, NASA, DOE and other agencies relevant to

astronomy and astrophysics; to discuss current and potential areas of cooperation between the agencies; to formulate recommendations for continued and new areas of cooperation and mechanisms for achieving them.

Dated: September 14, 2006.

BILLING CODE 7590-01-M

NUCLEAR REGULATORY COMMISSION

[EA-06-193]

In the Matter of Louisiana Energy Services L.P. (National Enrichment Facility) and All Other Persons Who Seek or Obtain Access to Safeguards Information Described Herein; Order Imposing Requirements for the Protection of Safeguards Information and Access to New Safeguards Information (Effective Immediately)

I

Louisiana Energy Services, L.P., (LES or the Licensee) holds a license, issued in accordance with the Atomic Energy Act (AEA) of 1954, by the U.S. Nuclear Regulatory Commission (NRC or Commission) authorizing it to construct and operate a uranium enrichment facility in Lea County, New Mexico. On March 19, 2004, in accordance with Commission direction in Staff Requirements Memorandum SECY-03-0083, NRC provided LES, for its information, copies of Orders issued to Category III facilities on interim measures to enhance physical security at those facilities. Those Orders contained Safeguards Information¹. In addition, in the future, the Commission may issue the Licensee additional Orders that require compliance with specific Additional Security Measures to enhance the security. These Orders are also expected to contain Safeguards Information, which cannot be released to the public and must be protected from unauthorized disclosure. Therefore, the Commission is imposing the requirements, as set forth in Attachments A and B of this Order, so that the Licensee can receive these documents. This Order also imposes requirements for the protection of Safeguards Information in the hands of any person,² whether or not a licensee of the Commission, who produces, receives, or acquires Safeguards Information.

¹ Safeguards Information is a form of sensitive, unclassified, security-related information that the Commission has the authority to designate and protect under section 147 of the AEA.

² Person means: (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, government agency other than the Commission or the Department of Energy, except that the Department of Energy shall be considered a person with respect to those facilities of the Department specified in section 202 of the Energy Reorganization Act of 1974 (88 Stat. 1244), any State or any political subdivision of, or any political entity within a State, any foreign government or nation or any political subdivision of any such government or nation, or other entity; and (2) any legal successor, representative, agent, or agency of the foregoing.

On August 8, 2005, the Energy Policy Act of 2005 (EPAct) was enacted. Section 652 of the EPAct amended Section 149 of the AEA to require fingerprinting and a Federal Bureau of Investigation (FBI) identification and criminal history records check of any person who is to be permitted to have access to Safeguards Information. The NRC's implementation of this requirement cannot await the completion of the Safeguards Information rulemaking, which is under way, because the EPAct fingerprinting and criminal history check requirements for access to Safeguards Information were immediately effective upon enactment of the EPAct. Although the EPAct permits the Commission by rule to except certain categories of individuals from the fingerprinting requirement, which the Commission has done (see 10 CFR 73.59, 71 FR 33989 (June 13, 2006)), it is unlikely that many Licensee employees are excepted from the fingerprinting requirement by the "fingerprinting relief" rule. Individuals relieved from the fingerprinting and criminal history checks under the relief rule include Federal, State, and local officials and law enforcement personnel; Agreement State inspectors, who conduct security inspections on behalf of the NRC; members of Congress and certain employees of members of Congress or Congressional Committees; representatives of the International Atomic Energy Agency or certain foreign government organizations. In addition, individuals who have active Federal security clearances and have satisfied the EPAct fingerprinting requirement need not be fingerprinted again. Therefore, in accordance with Section 149 of the AEA, as amended by the EPAct, the Commission is imposing additional requirements, as set forth by this Order, for access to new Safeguards Information³ by any person, from any person, whether or not a Licensee, Applicant, or Certificate Holder of the Commission or Agreement States.

II

The Commission has broad statutory authority to protect Safeguards Information and prohibit its unauthorized disclosure. Section 147 of the AEA, as amended, grants the Commission explicit authority to " * * * issue such orders, as necessary

³ "New Safeguards Information" means Safeguards Information generated subsequent to August 8, 2005, the date of enactment of the EPAct. "New Safeguards Information" also means any Safeguards Information, regardless of when it was generated, that is being accessed by an individual who has never been previously granted access to Safeguards Information.
