The format for the joint meeting will be discussions between the two sets of Commissioners following presentations by their respective staffs. In addition, representatives of the North American Electric Reliability Council (NERC) and the U.S. Department of Energy (DOE) may attend and participate in this meeting.

A free Webcast of this event will be made available through the NRC Web site, at <http://www.nrc.gov>. In addition, the event will be transcribed and the transcription will be made available through the NRC Web site approximately three business days after the meeting.

What Information Is EPA Particularly Interested in?

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.
