DEPARTMENT OF STATE

[Public Notice 5470]

United States Climate Change Technology Program

The United States Climate Change Technology Program requests expert review of the Working Group III contribution ("Climate Change 2007: Mitigation of Climate Change") to the Intergovernmental Panel on Climate Change Fourth Assessment Report.

The Intergovernmental Panel on Climate Change (IPCC) was established by the United Nations Environment Programme (UNEP) and the World Meteorological Organization (WMO) in 1988. In accordance with its mandate and as reaffirmed in various decisions by the Panel, the major activity of the IPCC is to prepare comprehensive and up-to-date assessments of policy-relevant scientific, technical, and socio-economic information relevant for understanding the scientific basis of climate change, potential impacts, and options for mitigation and adaptation. The First Assessment Report was completed in 1990, the Second Assessment Report in 1995, and the Third Assessment Report in 2001. Three working group volumes and a synthesis report comprise the Fourth Assessment Report, with all to be finalized in 2007. Working Group I assesses the scientific aspects of the climate system and climate change; Working Group II assesses the vulnerability of socio-economic and natural systems to climate change, potential negative and positive consequences, and options for

adapting to it; and Working Group III assesses options for limiting greenhouse gas emissions and otherwise mitigating climate change. These assessments are based upon the peer-reviewed literature and are characterized by an extensive and open review process involving both scientific/technical experts and governments before being accepted by the IPCC.

The IPCC Secretariat has informed the U.S. Department of State that the second-order draft of the Working Group III contribution to the Fourth Assessment Report is available for Expert and Government Review. The Climate Change Technology Program (CCTP) office is coordinating collection of U.S. expert comments and the review of these collations by panels of Federal scientists and program managers to develop a consolidated U.S. Government submission. Instructions on how to format comments are available at <http://www.climatechange.gov/library/ipcc/wg3-4ar-review.htm>, as is the document itself and other supporting materials.

If you choose to submit comments for potential inclusion or consideration as part of the U.S. Government review, please do not send the same set of comments to the IPCC WGIII Technical Support Unit. Properly formatted comments should be sent to wg3-4AR-USGreview@climatechange.gov by close of business, Wednesday, 23 August 2006 to be considered for inclusion in the U.S. Government collation. Include "IPCC WGIII" and reviewer surname in the e-mail subject title to facilitate processing.

For further information, please contact Michael Curtis, U.S. Climate Change Technology Program, U.S. Department of Energy, Office of Policy and International Affairs, 1000 Independence Ave., SW., Washington, DC 20585 (CCTPinfo@climatechange.gov).

Dated: July 17, 2006.

Trigg Talley,

Office Director, Acting, Office of Global Change, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State.

Notice of Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart B (Formerly Subpart Q) During the Week Ending July 7, 2006

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under Subpart B (formerly Subpart Q) of the Department of Transportation's Procedural Regulations (See 14 CFR 301.201 *et seq.*). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.
