Initiation of Review

In accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(d), we are initiating a new shipper review of the antidumping duty order on rebar from Turkey produced and exported by Ege Celik. See the Memorandum from the Team to the File through James Maeder, Office Director, entitled "Initiation of AD New Shipper Review: Certain Steel Concrete Reinforcing Bars from Turkey," dated November 2, 2006. Pursuant to 19 CFR 351.214(i), we will issue the preliminary results of this review no later than 180 days after the date on which the review is initiated, and the final results of this review no later than 90 days after the date on which the preliminary results are issued.

Pursuant to 19 CFR 351.214(g)(1)(i)(B), if a new shipper review is initiated in the month immediately following the semiannual anniversary month, the period of review will be the six-month period immediately preceding the semiannual anniversary month. Therefore, the POR for the new shipper review for Ege Celik is April 1, 2006, through September 30, 2006.

Interested parties may submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(d).

Dated: November 7, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Designation under the Textile and Apparel Commercial Availability Provisions of the African Growth and Opportunity Act (AGOA)

November 8, 2006.

AGENCY: The Committee for the Implementation of Textile Agreements (CITA)

ACTION: Designation

EFFECTIVE DATE: November 15, 2006.

SUMMARY: The Committee for the Implementation of Textile Agreements (CITA) has determined that certain combed and ring spun yarn, of a 92 percent cotton/8 percent cashmere blend, comprised of 2/32 Nm resulting in a 16 Nm yarn size, classified in subheading 5205.42.0020 of the Harmonized Tariff Schedule of the United States (HTSUS) for use in men's knit sweaters, cannot be supplied by the domestic industry in commercial quantities in a timely manner. CITA hereby designates such apparel articles of such yarn, that are cut from fabric formed, or knit-to-shape, and sewn or otherwise assembled in one or more eligible AGOA beneficiary countries as

eligible to enter free of quotas and duties under HTSUS subheading 9819.11.24.

FOR FURTHER INFORMATION CONTACT: Maria K. Dybczak, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 112(b)(5)(B) of the AGOA; Presidential Proclamation 7350 of October 2, 2000; Section 1 of Executive Order No. 13191 of January 17, 2001.

BACKGROUND:

The AGOA provides for quota-and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns and fabrics formed in the United States or a beneficiary country. The AGOA also provides for quota-and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary countries from fabric or yarn that is not formed in the United States, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the AGOA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. *See Procedures in Considering Request Under the Textile and Apparel "Short Supply" Provisions of The African Growth and Opportunity Act and The United-States Caribbean Basin Trade Partnership Act*, 66 FR 13502 (March 6, 2001).

On July 5, 2006 the Chairman of CITA received a petition from Shibani Inwear of Mauritius alleging that a certain combed and ring spun yarn, of a 92 percent cotton/8 percent cashmere blend, comprised of 2/32 Nm resulting in a 16 Nm yarn size, classified in subheading 5205.42.0020 of the HTSUS cannot be supplied by the domestic industry in commercial quantities in a timely manner. The petition requested quota- and duty-free treatment under the AGOA for men's knit sweaters that are both cut from fabric formed, or knit-to-shape, and sewn or otherwise assembled in one or more AGOA beneficiary countries from such yarn.

On July 12, 2006, CITA published a notice in the **Federal Register**

requesting public comments on the petition. *See Request for Public Comments on Commercial Availability Request under the African Growth and Opportunity Act (AGOA)*, 71 FR 39307 (July 12, 2006).

In response to a previous commercial availability request by the same petitioner on the subject yarn, submitted on March 6, 2006, CITA sought advice from the U.S. International Trade Commission (ITC).

In response to the previous commercial availability request for this subject yarn, on March 31, 2006, CITA and the Office of the U.S. Trade Representative (USTR) sent memoranda seeking the advice of the Industry Trade Advisory Committees (ITACs) for Textiles and Clothing and for Distribution Services.

As CITA had recently obtained advice from the ITC, and the ITC has confirmed that its advice is unchanged from the previous report, and the relevant ITACs had no comments regarding the subject yarn, CITA did not request advice again. On July 28, 2006, CITA and the USTR sent memoranda informing the Senate Finance Committee and the House Ways and Means Committee (collectively, the Congressional Committees) that CITA was available to consult on the request.

Based on the information and advice received and its understanding of the industry, CITA determined that the yarn set forth in the petition cannot be supplied by the domestic industry in commercial quantities in a timely manner. On September 5, 2006, CITA and USTR submitted a report to the Congressional Committees that set forth the action proposed, the reasons for such action, and advice obtained. A period of 60 calendar days since this report was submitted has expired.

CITA hereby designates men's knit sweaters that are both cut from fabric formed, or knit-to-shape, and sewn or otherwise assembled in one or more eligible beneficiary sub-Saharan African country from certain combed and ring spun yarn, of a 92 percent cotton/8 percent cashmere blend, comprised of 2/32 Nm resulting in a 16 Nm yarn size, classified in subheading 5205.42.0020 of the HTSUS, as eligible to enter free of quotas and duties, provided all other yarns used in the referenced apparel articles are U.S. formed, subject to the special rules for findings and trimmings, certain interlinings and de minimis fibers and yarns under section 112(d) of the AGOA, and that such articles are imported directly into the customs territory of the United States from an eligible AGOA beneficiary country.

An "eligible beneficiary sub-Saharan African country" means a country
