BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE**Defense Logistics Agency**

[DOD-2006-OS-0184]

Office of the Secretary of Defense; Privacy Act of 1974; Systems of Records

AGENCY: Defense Logistics Agency, DoD.

ACTION: Notice to add a system of records.

SUMMARY: The Defense Logistics Agency proposes to add a system of records notice to its inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.

DATES: This action will be effective without further notice on September 25, 2006 unless comments are received that would result in a contrary determination.

ADDRESSES: Send comments to the Privacy Act Officer, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221.

FOR FURTHER INFORMATION CONTACT: Ms. Jody Sinkler at (703) 767-5045.

SUPPLEMENTARY INFORMATION: The Defense Logistics Agency notices for systems of records subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The proposed system report, as required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, was submitted on August 14, 2006, to the House Committee on Government Reform, the Senate Committee on Homeland Security and Governmental Affairs, and the Office of Management and Budget (OMB) pursuant to paragraph 4c of Appendix I to OMB Circular No. A-130, 'Federal Agency Responsibilities for Maintaining Records About Individuals,' dated February 8, 1996 (February 20, 1996, FR 6427).

Dated: August 18, 2006.

C.R. Choate,

Alternate OSD Federal Register Liaison Officer, Department of Defense

S180.25**SYSTEM NAME:**

Public Affairs Subscription Mailing Lists.

SYSTEM LOCATION:

Public Affairs Office, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221, and the Public Affairs Offices at the Defense Logistics Agency (DLA) Field Activities. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals and organizations who have registered with DLA Public Affairs Offices to automatically receive magazines, newsletters, periodicals and other professional publications.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records maintained include individual's name, home or business telephone number, e-mail and mailing addresses, customer number, and publication(s) of interest.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Departmental Regulations, and 10 U.S.C. 133, Under Secretary of Defense for Acquisition, Technology, and Logistics.

PURPOSE(S):

The system is used to produce subscription mailing lists for distribution of DLA publications, and to perform statistical analyses of reader interest and opinion.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

The DoD 'Blanket Routine Uses' set forth at the beginning of DLA's compilation of systems of records notices apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Records are maintained on both paper and electronic storage media.

RETRIEVABILITY:

Records are retrieved by individual's name and address.

SAFEGUARDS:

Access is limited to those individuals who require the records for the performance of their official duties. Paper records are maintained in buildings with controlled or monitored access. During non-duty hours, records are secured in locked or guarded buildings, locked offices, or guarded cabinets. The electronic records systems employ user identification and password or smart card technology protocols.

RETENTION AND DISPOSAL:

Records are destroyed when superseded or obsolete.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Public Affairs Office, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221, and Public Affairs Officers at DLA Field Activities. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system of records contains information about themselves should address written inquiries to the Privacy Act Officer, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221, or the Privacy Act Officer of the particular DLA Field Activity involved. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices.

Individuals must provide full name and current mailing address to permit locating the record.

RECORD ACCESS PROCEDURE:

Individuals seeking access to information about themselves contained in this system of records should address written inquiries to the Privacy Act Officer, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221, or the Privacy Act Officer of the particular DLA Field Activity involved. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notice.

Individuals must provide full name and current mailing address to permit locating the record.

CONTESTING RECORD PROCEDURES:

The DLA rules for accessing records, for contesting contents and appealing initial agency determinations are contained in 32 CFR part 323, or may be obtained from the Privacy Act Officer, Headquarters, Defense Logistics Agency, ATTN: DP, 8725 John J. Kingman Road, Stop 2533, Fort Belvoir, VA 22060-6221.

RECORD SOURCE CATEGORIES:

From the subject individual or the DLA organization publishing the document.

EXEMPTIONS CLAIMED FOR SYSTEM:

None.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE**Department of the Army; Corps of Engineers****Notice of Intent To Prepare a Draft Environmental Impact Statement for a Proposed Cumberland County Regional Water Supply Project, Cumberland County, TN**

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The Corps of Engineers, Nashville District intends to prepare a Draft Environmental Impact Statement (DEIS) for a regional water supply project in Cumberland County, TN. This DEIS is necessary to provide National Environmental Policy Act (NEPA) coverage for a proposed regional water supply system capable of providing the county a reliable water supply for 50 years. The county is currently served by six water systems and development of individual water sources has been problematic from an environmental perspective. The county's current water supply capacity is approximately ten million gallons per day. A regional approach has been recommended to allow more efficient planning to develop future water supplies in an environmentally acceptable manner.

DATES: Written comments must be received by the Corps of Engineers on or before September 25, 2006.

ADDRESSES: Written comments on issues to be considered in the DEIS shall be mailed to: Tim Higgs, Project Planning Branch, Nashville District Corps of Engineers, P.O. Box 1070 (PM-P), Nashville, TN 37202-1070. Comments also may be e-mailed to timothy.a.higgs@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: For questions or additional information concerning this notice and meeting announcement, please contact Tim Higgs, Environmental Engineer, (615) 736-7863 or Walter Green, Project Manager, (615) 736-7854.

SUPPLEMENTARY INFORMATION: 1. The intent of the DEIS is to provide National Environmental Policy Act coverage for design, construction, and operational features of a regional water supply project in Cumberland County. Section 219 of the Water Resources Development Act (WRDA) of 1992, as amended by Section 502(24) of the WRDA of 1999, authorizes \$5,000,000 for technical planning, design and construction of water supply projects in Cumberland County.

1. In 1998, the Corps of Engineers, in cooperation with the Tennessee Department of Environment and Conservation, completed a Preliminary Engineering Report (PER) titled Cumberland County Regional Water Supply Study. This study was done at the request of Cumberland County under the Planning Assistance to States Program. The PER provided recommendations pertaining to engineering and permitting considerations for potential water supply alternatives to meet the county's projected needs through the year 2050. Due to potential environmental impacts associated with some of the alternatives, a determination has been made that an EIS is warranted.

2. Alternatives that have potential, either individually or in combination, for providing the county's future water supply needs include the following:

a. *Water Conservation.* Development and implementation of a water conservation plan which would include a water measurement and accounting system, a water pricing structure to encourage efficiency, a plan to inform and educate water users, assigning the responsibility for conservation activities to a person or group of persons, along with other water conservation measures.

b. *Groundwater.* Construct groundwater wells at 1-5 locations identified by a 1996 U.S. Geological Survey preliminary investigation as having the greatest potential to provide sufficient quantity for municipal usage.

c. *Pipeline to Large Reservoir.* Construct a raw water pipeline from an existing large reservoir. Potential water sources include Watts Bar Lake in Roane County, Center Hill Lake in White/DeKalb County, and Great Falls Lake in White County.

d. *Storage Impoundments.* Construct a new storage impoundment on Clear

Creek (Obed River tributary), Meadow Creek (East Fork of the Obey River tributary), Caney Fork River or other suitable stream. A variation of this alternative is to raise the existing Meadow Park Dam, Mayland Dam, Camp Ozone Dam or Tranquillechee Dam to provide additional storage.

e. *Water Harvesting.* Construct intake and pumping facilities to harvest water only during high flow periods and store that water in an off-site detention area. (For example, harvesting water from Caney Fork River and storing it in a raised Meadow Park Lake.)

4. This notice serves to solicit comments from the public; Federal, state and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered to determine whether or how to perform this work. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, water supply and conservation, economics, aesthetics, wetlands, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership, general environmental effects, and in general, the needs and welfare of the people.

5. Activities that may be proposed that require a review under the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b)(1) of the Clean Water Act (40 CFR Part 230) will be documented in the DEIS. For example, fill placement would be required for construction of some water supply alternatives (impoundments, weirs, and intakes).

6. Other Federal, state and local approvals likely required for the proposed work are as follows:

a. Section 401 water quality certification from the Tennessee Department of Environment and Conservation.

b. Coordination with the U.S. Fish and Wildlife Service, including a Biological Assessment/Opinion for Endangered Species Act compliance and a Fish and Wildlife Coordination Act Report.

c. The Tennessee Valley Authority will be asked to be a Cooperating Agency under NEPA since some alternatives to be considered in detail may fall under their jurisdiction.

7. Significant issues to be analyzed in depth in the draft DEIS include impacts to high quality surface streams such as
