On July 26, 2006, because one of the selected mandatory respondents notified the Department that it would not respond to the Department's

Extension of Time Limit of Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order or finding for which a review is requested. Consistent with section 751(a)(3)(A) of the Act, the Department may extend the 245-day period to 365 days if it is not practicable to complete the review within a 245-day period. The deadline for the preliminary results of these reviews is currently October 31, 2006.

The Department determines that completion of the preliminary results of these administrative reviews within the statutory time period is not practicable. Due to the additional time needed for respondent selection, the Department was not able to issue its initial antidumping duty questionnaires to the selected companies until June 20, 2006 in the PRC review, July 11, 2006, in the Brazilian, Ecuadorian, Indian, and Thai reviews, and July 12, 2006 for the Vietnamese review. The Department thus requires additional time to conduct its analysis for each company in these administrative and new shipper reviews.

Therefore, given the additional time needed to conduct complete analyses for these administrative and new shipper reviews, in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of review by 120 days, until February 28, 2007. The final

results continue to be due 120 days after the publication of the preliminary results. We are also extending the time limit for parties to submit new factual information, including surrogate value information to be considered for the preliminary results, until November 30, 2006, for the PRC and Vietnamese reviews. Parties should note that the due date for comments regarding surrogate country selection remains September 1, 2006, for Vietnam, and September 7, 2006, for the PRC.

This notice is published pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: August 21, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

Background

The ICC produces a family of Codes and Standards that are comprehensive, coordinated and are widely used across the country in the regulation of the built environment. Local, state and federal agencies use these codes and standards as the basis for developing regulations concerning new and existing construction.

The ICC code development process is initiated when proposals from interested persons—supported by written data, views, or arguments—are solicited, received and then published in the Proposed Changes document. This document is distributed a minimum of 30 days in advance of the Code Development Hearings and serves as the agenda for that session.

At the Code Development Hearing, the ICC Code Development Committee for each code or subject area of the code considers testimony and takes action on each proposal (Approval, Disapproval, or Approval as Modified). At the conclusion of committee action on each proposal, any member of the public assembly may make a motion for a vote by the ICC members in attendance ("assembly action") to consider an action different than the committee action. Successful assembly actions on code changes become part of the record of public comments and are considered at the Final Action Hearing. Following the Code Development Hearing, the Report of the Public Hearing is published, and identifies the disposition of each proposal, the reason for the committee's action and successful assembly actions. Any person may provide additional comment on the committee actions in the public comment period following the first
