V. Application Review Information

A. Criteria

The maximum number of points to be awarded for a capacity building application is 100. The minimum score for an application to be considered for funding is 75. The capacity building program is not subject to bonus points, as described in the General Section.

Points are assigned on five factors. When addressing Factors 2 through 5, applicants should discuss the specific capacity building activities that will be carried out during the term of the grant agreement. Applicants should provide relevant examples to support the proposal, where appropriate. Applicants should also be specific when describing the communities, populations, and organizations that they propose to serve and the specific outcomes expected as a result of the capacity building. Applicants should also be specific about the relationship of their plan to the goals and objectives in the HUD Strategic Plan. The plan can be viewed on the HUD Web site at http://www.hud.gov/utilities/intercept.cfm?offices/cfo/reports/hud_strat_plan_2006-2011.pdf.

1. *Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience* (15 points)

Factor 1 relates to the capacity of the applicant and its relevant organizational experience. Rating of the “applicant” or the “applicant’s organization and staff” includes in-house staff and any subcontractors and subrecipients who are firmly committed to the project. In responding to Factor 1, applicants should specify the experience, knowledge, skills, and abilities of the applicant’s organization and staff, and of any persons and organizations firmly committed to the project. Please do not include the Social Security Numbers of any staff.

a. (5 points) Recent and successful experience of the applicant’s organization in building the capacity of CDCs and CHDOs to develop affordable housing and community development projects.

In rating this factor, HUD will consider the extent to which the application demonstrates successful experience, within the last 4 years, in providing technical and administrative expertise to build the capacity of CDCs and CHDOs.

b. (5 points) Depth of experience in managing multiple capacity building tasks, to multiple entities, and in more than one geographic area.

In rating this factor, HUD will consider the extent to which the application demonstrates ability to manage capacity building assignments effectively.

c. (5 points) Knowledgeable key personnel skilled in providing one or more of the eligible activities for the capacity building program; a sufficient number of staff or ability to procure qualified experts or professionals with the knowledge, skills, and abilities to deliver the proposed level of services in the proposed service area in a timely and effective fashion; and an ability to provide capacity building in urban and rural settings.

In rating this factor, HUD will consider the extent to which the application demonstrates that the organization has an adequate number of key staff or the ability to procure individuals with the knowledge of effective capacity building approaches and knowledge of developing affordable housing and community development projects.

2. *Rating Factor 2: Need/Extent of the Problem* (15 points)

Sound and extensive understanding of need for capacity building in relation to the priorities listed in Section III.C. of this NOFA, as demonstrated by objective information and/or data, such

as information from current census data, the American Housing Survey, or other relevant data sources. Sound and extensive understanding of high-priority needs in urban and rural settings for CHDOs and CDCs, as demonstrated by objective information and/or data.

In rating this factor, HUD will evaluate the extent to which the application demonstrates an understanding of the specific needs for capacity building and supports the description of need with reliable, program-specific, quantitative information.

3. Rating Factor 3: Soundness of Approach (40 points)

a. (20 points) A sound approach for addressing the need for eligible capacity building activities in relation to the priorities listed in Section III.C. of this NOFA that will result in positive outcomes.

In rating this factor, HUD will evaluate the extent to which the application presents and supports a detailed, feasible, and practical approach for addressing capacity building needs, including techniques, time frames, goals, and intended beneficiaries, and the likelihood that these activities will be cost-effective and will result in the ability of the organization receiving technical assistance to commence work on specific housing and community development projects by the end of the performance period.

b. (10 points) A feasible work plan for designing, organizing, managing, and carrying out the proposed capacity building activities.

In rating this factor, HUD will evaluate the extent to which the application demonstrates the efficiency of the design, organization, and management of the proposed activities.

c. (10 points) An effective assistance program to specific disadvantaged communities, populations, and/or organizations that previously have been underserved and have the potential to participate in the capacity building program (such as the Neighborhood Revitalization Strategy Areas) designated by HUD, Colonias, or locally designated community development target areas.

In rating this factor, HUD will evaluate the extent to which the applicant: (1) Has identified and has documented, using reliable data, specific communities, populations, or organizations that have been disadvantaged or previously underserved communities, populations, or organizations and (2) has developed an effective strategy for engaging the participation of those communities,

populations, or organizations in the capacity building program.

4. Rating Factor 4: Leveraging Resources (15 points)

This factor evaluates the applicant's ability to leverage (secure) public and/or private sector resources (such as financing, supplies, or services) from sources other than HUD that can be added to HUD's funds to perform eligible activities and sustain the applicant's proposed project. Higher points will be awarded for higher percentages of leveraged resources, compared to the amount of HUD funds requested. No leveraged points will be awarded if the minimum match is not exceeded. For leveraging, HUD's Management Plan has a performance goal of ten investment dollars from outside sources in total project development costs for each federal dollar awarded. To receive points for leverage, all contributions (cash or in-kind) promised during the period of performance must be expressed in dollar values and documented in a commitment letter submitted with the application from a responsible official of each contributing organization. All leveraging commitments shall be scanned and attached to the electronic application or submitted via fax (using form HUD-96011, "Third Party Documentation Facsimile Transmittal" ("Facsimile Transmittal Form" on Grants.gov) as part of the application.

Applicants must note that leveraging resources are considered additional resources beyond and above the statutorily required 3:1 matching resource requirement and cannot be counted towards the statutory match requirement.

5. Rating Factor 5: Achieving Results and Program Evaluation (15 points)

a. (8 points) An effective, quantifiable evaluation plan for measuring performance using the Logic Model (form HUD-96010, "Program Outcome Logic Model") with specific outcome measures and benchmarks, and performance improvements.

In rating this factor, HUD will evaluate the extent to which the application has an evaluation plan that includes outcomes and is specific, measurable, and appropriate in relation to the activities proposed. HUD is committed to ensuring that programs result in the achievement of HUD's strategic mission. To support this effort, grant applications submitted for HUD programs will be rated on how well they tie proposed outcomes to HUD's policy priorities and annual goals and objectives, as well as the quality of the applicant's proposed evaluation and monitoring plans. HUD's strategic

framework establishes the goals and objectives for the Department. Please refer to the General Section.

The Logic Model should, at a minimum, discuss those performance indicators that have been developed for use by HUD and the Office of Management and Budget (OMB) in evaluating the section 4 program using OMB's Program Assessment Rating Tool (PART). These measures include: (1) The annual number of homes renovated, preserved, or newly constructed; (2) the annual number of trainings created and provided to CDCs; (3) the long-term total development cost estimate of community development projects funded by CDCs; and (4) the efficiency measure of per-unit cost of capacity building for housing units developed or renovated.

Applicants should also outline any other short-or long-term outcomes that are indicators of their program's performance.

b. (7 points) Successful past performance in administering HUD's capacity building program. This rating factor reflects HUD's goal to embrace high standards of ethics, management, and accountability. Applicants should include, as applicable, increases in Community Planning and Development (CPD) or affordable housing and community development program accomplishments as a result of capacity building (e.g., number of affordable housing units developed, number of trainings delivered to CDCs and CHDOs, growth of CDC and CHDO capacity over time, efficiency or effectiveness of administration of CPD or community development programs, timeliness of use of CPD or community development program funds, and project development investment and leveraging efficiencies).

In rating this factor, HUD will evaluate the extent to which the application demonstrates successful past performance that was timely and resulted in positive outcomes in the delivery of capacity building for affordable housing and community development. HUD will also consider past performance of current section 4 grantees, including financial and other information in HUD's files.

B. Review and Selection Process

1. *Review Types.* Two types of reviews will be conducted. First, HUD will review each application to determine whether it meets threshold eligibility requirements. Second, HUD will review and assign scores to applications using the Factors for Award noted in Section V.A.

2. *Ranked Order.* Once rating scores are assigned, rated applications will be listed in ranked order. Applications within the fundable range (score of 75+ points) may then be funded in ranked order.

3. *Threshold Eligibility Requirements.* All applicants must be in compliance with the applicable threshold requirements found in the General Section and the eligibility requirements listed in Section III of this NOFA in order to be reviewed, scored, and ranked. Applications that do not meet these requirements and applications that were received after the deadline (see Section IV.C. of the General Section) will be considered ineligible for funding.

VI. Award Administration Information

A. Award Notices

HUD will send written notifications to both successful and unsuccessful applicants. A notification sent to a successful applicant is not an authorization to begin performance or to incur costs.

After selection for funding, each grantee will submit to HUD a specific work and funding plan for each community it proposes to serve, showing when and how the federal funds and matching funds will be used. The work plan must be sufficiently detailed for monitoring purposes and must identify the performance goals and objectives to be achieved. Within 45 days after submission of a specific work plan, HUD will approve the work plan or notify the grantee of matters that need to be addressed prior to approval. Work plans may be developed for less than the full dollar amount and term of the award, but no HUD-funded costs may be incurred for any activity until the work plan is approved by HUD. All activities are also subject to the environmental requirements in section III.C.5. of this notice.

After selection, but prior to award, applicants selected for funding will be required to provide HUD with their written Code of Conduct, if they have not previously done so and it is recorded on the HUD Web site at <http://www.hud.gov/offices/adm/grants/codeofconduct/cconduct.cfm>.

B. Administrative and National Policy Requirements

1. *OMB Circulars and Government-wide Regulations Applicable to Financial Assistance Programs.* Awards under this NOFA will be governed by 24 CFR part 84 (Uniform Administrative Requirements), OMB Circular A-122 (Cost Principles for Nonprofit

Organizations), and OMB Circular A-133 (Audits of States, Local Governments, and Non-Profit Organizations). Copies of the OMB Circulars may be obtained from Executive Office of the President's (EOP) Publications Office, Room 2200, New Executive Office Building, Washington, DC 20503, telephone number (202) 395-3080 (this is not a toll-free number) or (800) 877-8339 (TTY Federal Information Relay Service). Information also may be obtained from the OMB Web site at <http://www.whitehouse.gov/omb/circulars/index.html>.

2. *General.* See section III.C. of the General Section regarding additional applicable requirements.

C. Reporting

1. Grantees will be required to report to the government technical representative (GTR) quarterly, unless otherwise specified in the grant agreement. The quarterly performance report shall be submitted to HUD within 45 days after each calendar quarter. Performance reports shall include reports on both performance and financial progress under work plans and shall include reports on the commitment and expenditure of private matching resources utilized through the end of the reporting period. Reports shall conform to the reporting requirements of 24 CFR part 84. As part of the required quarterly report to HUD, grant recipients must include a completed Program Logic Model (form HUD-96010), which identifies output and outcome achievements.

2. Additional information or increased frequency of reporting may be required by HUD any time during the grant agreement, if HUD finds such reporting to be necessary for monitoring purposes.

3. To further the consultation process and share the results of progress to date, the Secretary may require grantees to present and discuss their performance reports at annual meetings in Washington, DC, during the life of the award.

4. The performance reports must contain the information required under 24 CFR part 84, including a comparison of actual accomplishments with the objectives and performance goals of the work plans. In the work plans, each grantee will identify performance goals and objectives established for each community in which it proposes to work and appropriate measurements under the work plan, such as the number of housing units and facilities each CDC or CHDO produces annually during the grant period and the average

cost of such units. The performance reports will also include a discussion of the reasonableness of the unit costs, the reasons for slippage if established objectives and goals are not met, and additional pertinent information.

5. A final performance report, in the form described in paragraph (d) immediately above, shall be provided to HUD by each grantee within 90 days after the completion date of the award.

6. Financial status reports (SF-269A) shall be submitted quarterly.

The Draft CCPs/EAs will also be available for viewing and downloading online at <http://pacific.fws.gov/planning>. Copies of the Draft CCPs/EAs may be viewed at the Pacific Remote Islands National Wildlife Refuge Complex Office during the regular business working hours from 7 a.m. to 4 p.m., Monday through Friday. The office is located in the Prince Jonah Kuhio Kalaniana'ole Federal Building at 300 Ala Moana Blvd., Room 5-231, Honolulu, HI.

Background

The Refuges are located near the Equator between 1,300 and 1,700 nautical miles south to southwest from their administrative office in Honolulu, HI. These Refuges are part of the National Wildlife Refuge System (System) which is managed by the Service. We are developing individual Draft CCPs/EAs for each of the Refuges, however, we are developing them under one planning process, because they are part of the same ecosystem and share many of the same issues and management opportunities.

These Refuges were established in 1974, when the Secretary of the Interior transferred responsibility for the islands, and their territorial seas outward to the 3-nautical-mile limit, from the Office of Territorial Affairs to the Service. The islands range in size from 648 to 1,273 acres with total acreage for the Refuges ranging from 31,909 to 37,487 acres. The purpose for establishing the Refuges is "the restoration and preservation of the complete ecosystem, terrestrial and marine." Special emphasis is placed on the protection, restoration, and preservation of nesting seabirds. Because of the physical characteristics of these islands, landings and access are extremely hazardous; therefore, the Refuges have been closed to public

entry since establishment, to protect wildlife values and human safety.

Purpose and Need for Action

The purpose of the CCPs is to provide a coherent, integrated set of management actions to help attain the purposes and objectives of the Refuges. The CCPs identify the conservation role of the Refuges, explain the Service's proposed management actions, and provide a basis for Refuge budget requests.

Alternatives

Four alternatives for managing the Refuges for the next 15 years are identified and evaluated in the Draft CCPs/EAs. The preferred alternative in each CCP/EA is to implement Alternative B. Alternative B achieves the Refuges' purposes, and goals; contributes to the System mission; addresses significant issues and relevant mandates; and is consistent with principles of sound fish and wildlife management. The Refuges are currently closed to all public use activities and will remain closed under each alternative.

Alternative A (No Action Alternative). Alternative A provides a baseline from which to compare the action alternatives (Alternatives B, C, and D). Under Alternative A, management practices already underway or funded would continue. These activities include routine biological surveys, inspection of entrance signs, monitoring for the presence of invasive species, and collection of marine debris. Visits would occur once every 2 years and would be arranged through, and dependent upon, partner agencies and organizations, as is current practice.

Alternative B. Alternative B is the Service's preferred alternative. Under Alternative B, the frequency of the activities described in Alternative A would increase and occur annually. There would be no increase in the scope or complexity of management activities. The collection of scientific data and assessment of habitat conditions would continue to occur. Additional management activities that would occur under Alternative B include a project to attract two rare seabird species to the Refuges and a project to conduct additional marine habitat exploration.

Alternative C. This alternative includes a substantial increase in the frequency of visits, and also increases the scale and scope of management activities conducted during site visits. A Service owned or chartered research vessel, and crew members and their operational needs are required components of this alternative.
