

according to the requirements under 49 CFR 541.5 and 541.6 (marking of major component parts and replacement parts).

NHTSA notes that if VW wishes in the future to modify the device on which this exemption is based, the company may have to submit a petition to modify the exemption. Section 543.7(d) states that a part 543 exemption applies only to vehicles that belong to a line exempted under this part and equipped with the anti-theft device on which the line's exemption is based. Further, § 543.9(c)(2) provides for the submission of petitions "to modify an exemption to permit the use of an anti-theft device similar to but differing from the one specified in that exemption."

The agency wishes to minimize the administrative burden that § 543.9(c)(2) could place on exempted vehicle manufacturers and itself. The agency did not intend in drafting part 543 to require the submission of a modification petition for every change to the components or design of an anti-theft device. The significance of many such changes could be *de minimis*. Therefore, NHTSA suggests that if the manufacturer contemplates making any changes, the effects of which might be characterized as *de minimis*, it should consult the agency before preparing and submitting a petition to modify.

Title: Computation and Characterization of Income and Earnings and Profits under the Dollar Approximate Separate Transactions Method of Accounting (DASTM).

OMB Number: 1545-1051.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Publication of Inflation Adjustment Factor, Nonconventional Source Fuel Credit, and Reference Price for Calendar Year 2006

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: Publication of the inflation adjustment factor, nonconventional source fuel credit, and reference price for calendar year 2006 as required by section 45K of the Internal Revenue Code (26 U.S.C. 45K). The inflation adjustment factor, nonconventional source fuel credit, and reference price are used in determining the tax credit allowable on the sale of fuel from nonconventional sources under section 45K during calendar year 2006.

DATES: The 2006 inflation adjustment factor, nonconventional source fuel credit, and reference price apply to

qualified fuels sold during calendar year 2006.

Inflation Adjustment Factor: In the cases of gas produced from biomass and liquid, gaseous, or solid synthetic fuel produced from coal, the inflation adjustment factor for calendar year 2006 is 2.3429. In the case of facilities producing coke or coke gas, the inflation adjustment factor for calendar year 2006 is 1.0605.

Credit: The nonconventional source fuel credit for gas produced from biomass and for liquid, gaseous, or solid synthetic fuel produced from coal for calendar year 2006 (adjusted to reflect the phase-out amount) is \$4.72 per barrel-of-oil equivalent of qualified fuels. In the case of facilities producing coke or coke gas, the nonconventional source fuel credit for calendar year 2006 is \$3.18 per barrel-of-oil equivalent of qualified fuels.

Reference Price: The reference price for calendar year 2006 is \$59.68. Because the reference price exceeds \$23.50 multiplied by the inflation adjustment factor, under section 45K(b)(1), the credit for gas produced from biomass and for liquid, gaseous, or solid synthetic fuel produced from coal is reduced by \$2.31 per barrel-of-oil equivalent of qualified fuels for calendar year 2006. The phase-out of the credit does not apply to facilities producing coke or coke gas.
