BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[EPA-R09-OAR-2006-AZ-0558; FRL-8292-7]

Approval and Promulgation of Implementation Plans; Designation of Areas for Air Quality Planning Purposes; State of Arizona; Boundary Redesignation; Finding of Attainment for Miami Particulate Matter of 10 Microns or Less (PM₁₀) Nonattainment Area; Determination Regarding Applicability of Certain Clean Air Act Requirements; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State of Arizona's boundary redesignation of the Hayden/Miami PM₁₀ nonattainment area into two separate PM₁₀ nonattainment areas: Hayden and Miami. EPA is also proposing to find that the Miami PM₁₀ nonattainment area is attaining the PM₁₀ national ambient air quality standard, and, based on this attainment finding, EPA is proposing to determine that certain Clean Air Act requirements are not applicable for so long as the Miami area shows continued attainment of the standard based on current, publicly available, quality-assured monitoring data. EPA is taking this action consistent with obligations under the Clean Air Act to act on State redesignations. Lastly, EPA is proposing to correct two errors in previous rulemakings that involved the designations of PM₁₀ areas within the State of Arizona.

DATES: Any comments on this proposal must arrive by April 27, 2007.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R09-

Instructions: Direct your comments to Docket ID No. EPA-R09-OAR-2006-AZ-0558. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA, without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. SUPPLEMENTARY INFORMATION:

Throughout this document, wherever "we," "us," or "our" is used, we mean the EPA.

This proposal addresses EPA's approval of the State of Arizona's boundary redesignation of the Hayden/Miami PM₁₀ nonattainment area into two separate PM₁₀ nonattainment areas: Hayden and Miami. EPA is also proposing to find that the Miami PM₁₀ nonattainment area is attaining the PM₁₀ national ambient air quality standard, and, based on this attainment finding, EPA is proposing to determine that certain Clean Air Act requirements are not applicable for so long as the Miami area shows continued attainment of the standard based on current, publicly available, quality-assured monitoring data. EPA is taking this action consistent with obligations under the Clean Air Act to act on State redesignations. Lastly, EPA is proposing to correct two errors in previous rulemakings that involved the designations of PM₁₀ areas within the State of Arizona.

In the Rules and Regulations section of this **Federal Register**, we are taking direct final action to take these actions because we believe that they are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open

a second comment period, so anyone interested in commenting should do so at this time. If we do not receive comments, no further activity is planned.

For all the reasons set forth in the parallel direct final rule, we are proposing to approve the State of Arizona's boundary redesignation of the Hayden/Miami PM₁₀ nonattainment area into two separate PM₁₀ nonattainment areas: Hayden and Miami, and to determine that the Miami moderate PM₁₀ nonattainment area in Arizona is attaining the PM₁₀ national ambient air quality standard. A determination of attainment is not a redesignation to attainment under CAA section 107(d)(3) because we have not yet approved a maintenance plan as required under section 175A of the CAA or determined that the area has met the other CAA requirements for redesignation.

Also, for all the reasons set forth in the parallel direct final rule, we further propose to determine that, because the Miami area is attaining the PM₁₀ NAAQS, certain attainment demonstration requirements, along with other related requirements of the CAA, are not applicable to the Miami area for so long as the area continues to attain. Lastly, EPA is proposing to correct two errors in previous rulemakings that involved the classification of PM₁₀ nonattainment areas within the State of Arizona.

For further information on this proposal and the rationale underlying our proposed action, please see the direct final rule.

Dated: March 20, 2007.

Wayne Nastri,

Regional Administrator, Region 9.

BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B 7711]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Section, Mitigation Division, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more

stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act.

This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.
