BILLING CODE 6717–01–P

DEPARTMENT OF THE INTERIOR**Office of Surface Mining Reclamation and Enforcement****30 CFR Part 938**

[PA–147–FOR]

Pennsylvania Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We are removing five required amendments to the Pennsylvania regulatory program (the “Pennsylvania program”) regulations under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act) related to alternative reclamation plans; alternative postmining land use determinations; and bond forfeiture sites where reclamation is unreasonable, unnecessary, or impossible. Pennsylvania revised its program to be consistent with the corresponding Federal regulations and SMCRA.

We are also approving two of four additional requested changes (not required) to the Pennsylvania program. Pennsylvania revised its program at its own initiative to clarify ambiguities and initiate changes in its fee collection calculations. The two approved changes are in regard to a typographical reference error and the evaluation of bond forfeiture sites. We are deferring our decision on two changes in regard to the discontinuation of a \$100 per acre reclamation fee.

EFFECTIVE DATE: April 17, 2007.

FOR FURTHER INFORMATION CONTACT:

George Rieger, Chief, Pittsburgh Field Division, Telephone: (717) 782–4036, e-mail: grieger@osmre.gov.

SUPPLEMENTARY INFORMATION:

- I. Background on the Pennsylvania Program
- II. Submission of the Amendment
- III. OSM’s Findings
- IV. Summary and Disposition of Comments
- V. OSM’s Decision
- VI. Procedural Determinations

I. Background on the Pennsylvania Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of the Act * * *; and

rules and regulations consistent with regulations issued by the Secretary pursuant to the Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Pennsylvania program on July 30, 1982. You can find background information on the Pennsylvania program, including the Secretary’s findings, the disposition of comments, and conditions of approval in the July 30, 1982, **Federal Register** (47 FR 33050). You can also find later actions concerning Pennsylvania’s program and program amendments at 30 CFR 938.11, 938.12, 938.13, 938.15 and 938.16.

II. Submission of the Amendment

By letter dated May 23, 2006 the Pennsylvania Department of Environmental Protection (PADEP) sent us an amendment to revise its program regulations at 25 Pennsylvania Code (Administrative Record No. PA 793.11) under SMCRA (30 U.S.C. 1201 *et seq.*).

Pennsylvania sent the amendment in response to five required program amendments codified in the Federal regulations at 30 CFR 938.16 (mm), (nn), (oo), (pp), and (qq), and to include four additional changes made at its own initiative. The required amendments pertain to alternative reclamation plans, alternative post mining land use determinations, and bond forfeiture sites where reclamation is unreasonable, unnecessary, or impossible and were required in a final rule notice published in the **Federal Register** on October 24, 1991 (56 FR 55080). The revisions that Pennsylvania proposed at its own initiative concern money received from reclamation fees and the evaluation of bond forfeiture sites.

We announced receipt of the proposed amendment in the August 28, 2006, **Federal Register** (71 FR 50868). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the amendment’s adequacy (Administrative Record No. PA 793.17). The public comment period ended on September 27, 2006. We did not hold a public hearing or meeting because no one requested one. We received written comments from three Federal agencies and one environmental organization.

III. OSM’s Findings

Following are the findings we made concerning the amendment under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17. We are approving the amendment, except as noted below, which includes removing five required amendments to the Pennsylvania regulatory program. We
