In order for an affirmative determination to be made for workers of a primary firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. the sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. there has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. the country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. the country to which the workers' firm has shifted production of the articles to a beneficiary country under

the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. there has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made for secondarily affected workers of a firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(b) of the Act must be met.

(1) significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) the workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and such supply or production is related to the article that was the basis for such certification; and

(3) either—

(A) the workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) a loss or business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

1. Whether a significant number of workers in the workers' firm are 50 years of age or older.

SUPPLEMENTARY INFORMATION:

I. Background

Grantees that are awarded High Growth Job Training Initiative (HGJTI) grants and the Community-Based Job Training Grants (CBJTG) will be required to submit standardized quarterly reports summarizing the number and types of participants served by grantees, the number of exiters, the number of participants engaged in training activities, and participant outcomes. These outcomes include the number of participants who received a degree or certificate, who were placed in employment, and who were placed in training-related employment. In addition, ETA will require grantees to submit records of program exiters on a quarterly basis. These records will help ETA compute the Office of Management and Budget's (OMB) common job training and employment performance measures, gauge the effects of the HGJTI and CBJTG grants, identify grantees that could serve as useful models, and target technical assistance appropriately.

The HGJTI and CBJTG reporting and record keeping requirements are consistent with the President's Management Agenda to improve the management and performance of the Federal government and OMB's common performance measures. The measures are applied to certain Federally funded employment and training programs with similar strategic goals, including the HGJTI and CBJTG programs. These common performance measures enhance the government's ability to assess the effectiveness of the workforce investment system as a whole, including its performance in serving people who face significant barriers to employment. By minimizing the differences in reporting and performance requirements across programs, common performance measures facilitate the integration of service delivery and break down barriers to coordination among programs. Common performance measures also reduce the reporting burden for states and grantees, by providing consistent performance measurement definitions and methodologies across programs.

The common job training and employment measures are, therefore, a key component of the HGJTI and CBJTG performance accountability system, because they permit the core purposes of the workforce system to be described in a similar manner.
