Nature and Extent of Confidentiality:

The Commission contends that areas in which detailed information is required are fully subject to regulation and the issue of data being regarded as sensitive will arise in special circumstances only. In such circumstances, the respondent is instructed on the appropriate procedures to follow to safeguard confidential data. Respondents may request confidential treatment of such

information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the annual reporting requirement). There is no change in the number of respondents/responses and burden hours.

In the Commission's Memorandum and Opinion and Order and Notice of Proposed Rulemaking, WC Docket No. 08-190, FCC 08-203, released September 6, 2008, the Commission granted in significant part AT&T's petition for forbearance on the ARMIS service quality and infrastructure reporting requirements, subject to certain conditions. In addition, the Commission determined that its conclusions underlying its forbearance decision for AT&T also hold true for the other carriers required to file ARMIS Reports 43-05, 43-06, 43-07, and 43-08. Subject to certain conditions, the Commission found that the criteria of section 10(A)(1) and (a)(2) are satisfied. Given the burdens associated with the data reporting, and in light of the commitments of the reporting carriers, and other continuing regulatory requirements, the Commission determined that forbearance to be in the public interest.

The Commission noted that the reporting carriers have committed to continue customer satisfaction data and to file those data publicly, through ARMIS Report 43-06 filing for 24 months from the effective date of the Commission's order. Further, the Commission noted that this will ensure continuity with regard to the customer satisfaction data that the Commission has collected up to this point, and affords the Commission a reasonable period of time to consider whether to adopt industry-wide reporting requirements. The Commission therefore adopted that commitment as a condition of its forbearance. Finally, the Commission granted the same forbearance relief to any similarly situated carriers who made the same commitment and made clear that the relief that the Commission granted is not otherwise conditional.

In the NPRM portion of the Commission's September 6, 2008 Order placed in the **Federal Register** on October 15, 2008 (73 FR 60997), the Commission recognized the possibility that customer satisfaction data contained in ARMIS Report 43-06 might be useful to consumers to help
