DEPARTMENT OF ENERGY

Notice of Availability: Office of Civilian Radioactive Waste Management; National Transportation Plan, Revision 0

AGENCY: Department of Energy.

ACTION: Notice of availability.

SUMMARY: The Department of Energy's (DOE's) Office of Civilian Radioactive Waste Management (OCRWM) is making available its *National Transportation Plan, Revision 0* (DOE/RW-0603, January 2009) for public review and comment. The *National Transportation Plan* outlines OCRWM's current strategy and planning for developing and implementing the transportation system that will be required to transport spent nuclear fuel (SNF) and high-level radioactive waste (HLW) from where the material is generated or stored to the proposed repository at Yucca Mountain, Nevada. OCRWM does not expect actual shipments to begin before 2020, but has started the transportation planning process well in advance to ensure the concerns and input of State, Tribal and local officials, as well as other involved and interested parties, are taken into account. OCRWM's *National Transportation Plan* will be updated as appropriate to accommodate changes to the waste management system, reflect progress in the development and implementation of the transportation system, and incorporate stakeholder and public comments. OCRWM also anticipates that detailed implementation plans will be developed in collaboration with the stakeholder community.

DATES: Interested persons are invited to submit comments on or before April 30, 2009.

ADDRESSES: The document is being made available on the OCRWM Web site at <http://www.ocrwm.doe.gov>. Persons wishing to receive a print copy via regular mail should contact: Mr. Frank Moussa, U.S. Department of Energy, OCRWM Office of Logistics Management, 1000 Independence Avenue, SW., Washington, DC 20585-0001. Written comments should be submitted electronically via the Web at <http://www.ocrwm.doe.gov>, or by regular mail to Mr. Frank Moussa at the address identified above.
