

rule deletes procedures at DFARS 239.7407-1 and 239.7407-2 regarding the use of basic agreements and communication service authorizations for the acquisition of telecommunications services. Text on this subject will be relocated to the new DFARS companion resource, Procedures, Guidance, and Information (PGI), available at <http://www.acq.osd.mil/dpap/dars/index.htm>.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule addresses procedural matters only, and makes no significant change to contracting policy. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subpart in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2003-D056.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

SUPPLEMENTARY INFORMATION:

A. Background

DFARS Transformation is a major DoD initiative to dramatically change the purpose and content of the DFARS. The objective is to improve the efficiency and effectiveness of the acquisition process, while allowing the acquisition workforce the flexibility to innovate. The transformed DFARS will contain only requirements of law, DoD-wide policies, delegations of FAR authorities, deviations from FAR requirements, and policies/procedures that have a significant effect beyond the internal operating procedures of DoD or a significant cost or administrative impact on contractors or offerors. Additional information on the DFARS Transformation initiative is available at <http://www.acq.osd.mil/dpap/dfars/transf.htm>.

This proposed rule is a result of the DFARS Transformation initiative. The rule deletes obsolete procedures for screening of Government inventory before authorizing a contractor to purchase information technology equipment. DoD now manages information technology equipment in the same manner as other Government property, in accordance with FAR part 45 and DFARS part 245.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed DFARS changes are limited to deletion of obsolete procedures for screening of Government inventory. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subpart in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2003-D054.

The transformed DFARS will contain only requirements of law, DoD-wide policies, delegations of FAR authorities, deviations from FAR requirements, and policies/procedures that have a significant effect beyond the internal operating procedures of DoD or a significant cost or administrative impact on contractors or offerors. Additional information on the DFARS Transformation initiative is available at <http://www.acq.osd.mil/dpap/dfars/transf.htm>.

This proposed rule is a result of the DFARS Transformation initiative. The proposed changes include—

- Deletion of an obsolete clause at DFARS 252.239–7003, Facilities and Services to be Furnished—Common Carriers.
- Expansion of the applicability of the clauses at DFARS 252.239–7004, Orders for Facilities and Services; 252.239–7005, Rates, Charges, and Services; and 252.239–7007, Cancellation or Termination of Orders, to all carriers of telecommunications services. The clauses presently apply only to common carriers (those subject to Federal Communications Commission or other governmental regulation). Expansion of these clauses to all carriers reflects the current business environment, where the differences between common and noncommon carriers have become less distinct.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities

within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed DFARS changes reflect current business practices for the acquisition of telecommunications services. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2003–D053.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*
