Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum Project No. 03-03

Notice is hereby given that, on November 2, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Petroleum Environmental Research Forum Project No. 03-03 ("PERF; Project No. 03-03") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties to the venture are: ChevronTexaco Energy Technology Company, Richmond, CA; ExxonMobil

Production Company, Houston, TX; Total E&P Services, Courbevoie, FRANCE; Halliburton Energy Services Group, Houston, TX; and Statoil ASA, Stavanger, NORWAY. The general area of PERF Project No. 03-03's planned activity is to generate a set of model technical standards that may be incorporated into regulations (framework) based on a risk approach to protect health and the environment at E&P operations. The activities to be carried out include the development of a framework from which risk based technical standards can be derived. Participation in this joint venture will remain open to qualified persons and organizations, and the participants intend to file additional written notifications disclosing all changes in membership.

Dorothy B. Fountain,

Deputy Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental Research Forum Project No. 2002-13

Notice is hereby given that, on October 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Petroleum Environmental Research Forum Project No. 2002-13 ("PERF Project No. 2002-13") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties to the venture are: ExxonMobil Research and Engineering Company, Fairfax, VA; ConocoPhillips Company, Houston, TX; and Unocal, Sugarland, TX. The nature and objectives of the venture are to create a forum for sharing information regarding the industry's water management practices. This may include water reuse solutions in practice, rejected reuse solutions, case studies in the area of water reuse/minimization/optimization, produced

water reclamation, wastewater recovery, and tools used to develop these solutions. The program will be carried out through compiling, presenting and exchanging of individual research projects, including identification of methods to improve water management for industry.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—The Software Defined Radio Forum

Notice is hereby given that, on September 20, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), The Software Defined Radio Forum ("SDR Forum") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the name and principal place of business of the standards development organization is: The Software Defined Radio Forum, Denver, CO. The nature and scope of SDR Forum's standards development activities are: (a) To promote the development and application of a compatible modular technology base for software-defined information transfer systems and devices; (b) to comprise an international group of equipment vendors, subsystem vendors, software developers, technology developers, communication service providers, research and engineering organizations, government users, regulators and other interested parties who share the common business interest of supporting the advancement of a compatible modular technology base for multimode multiband information transfer systems and devices; (c) to promote the development and application of such technology worldwide; (d) to promote national and international compatibility
