DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995, Pub. L. 104-13.

Bureau: International Trade Administration.

Title: BISNIS FinanceLink.

Agency Form Number: ITA-4145P.

OMB Number: 0625-0231.

Type of Request: Regular Submission.

Burden: 8.

Number of Respondents: 50.

Avg. Hours Per Response: 10 minutes.

Needs and Uses: The International

Trade Administration's Business Information Service for the Newly Independent States offers business intelligence and counseling to U.S. companies seeking to export or invest in the countries of the Former Soviet Union. One of the essential components of BISNIS's services is assisting companies in locating suitable financing for exports. Often, official sources, such as the Export-Import Bank of the United States, cannot handle all requests for a variety of reasons. FinanceLink is an internet-based service to facilitate contact between exporters and financing agencies. Exporters fill out a form giving relevant details about the desired transaction and submit it via Internet to BISNIS; BISNIS will, in turn, distribute the information collected to potential financing agencies. The intention is to provide a service that benefits both exporters and financing agencies.

Affected Public: Business or other for-profits.

Frequency: On Occasion.

Respondent's Obligation: Required to obtain or retain a benefit, voluntary.

OMB Desk Officer: David Rostker, (202) 395-7340.

L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

SUPPLEMENTARY INFORMATION**I. Abstract**

The Monthly Wholesale Trade Survey provides the only continuous measure of monthly sales, end-of-month inventories, method of inventory valuation, and inventories/sales ratios in the United States by selected kinds of business for merchant wholesalers. The Bureau of Economic Analysis (BEA) uses this information to improve the inventory valuation adjustments applied to estimates of the Gross Domestic Product (GDP). The Bureau of Labor

Statistics (BLS) uses the data as input to their Producer Price Indexes and in developing productivity measurements.

Estimates produced from the Monthly Wholesale Trade Survey are based on a probability sample and are published on the North American Industry Classification System (NAICS) basis. The sample design consists of small, medium, and large cases requested to report sales and inventories each month. The sample, consisting of about 4,000 wholesale businesses, is drawn from the Business Register, which contains all Employer Identification Numbers (EINs) and listed establishment locations. The sample is updated quarterly to reflect employer business "births" and "deaths"; adding new employer businesses identified in the Business and Professional Classification Survey and deleting firms and EINs when it is determined they are no longer active.

The Monthly Wholesale Trade Survey will continue to generate its monthly report form through a print-on demand system. This system allows us to tailor the survey instrument to a specific industry. For example, it will print an additional instruction for a particular NAICS code. This system also reduces the time and cost of preparing mailout packages that contain unique variable data, while improving the look and quality of the products being produced.
