

want to provide records storage services for Federal agencies. We are unable to quantify the economic impact of this alternative on small business.

2. *Relax the waiver process for small businesses.* The proposed rule addresses the provisions that industry identified in their comments as major obstacles for small businesses. The alternative considered here would be to allow records centers that qualify as small businesses to apply for a waiver from § 1228.228(a)'s requirement for noncombustible roofs, and to have two tiers of requirements in § 1228.230 relating to the fire-resistive rating of building elements. The proposed requirements specified in this proposed rule would apply to small businesses; the existing (January 2000) requirements would be retained for NARA records centers, agency records centers, and commercial records centers that are other than small businesses. We would still make the proposed changes to the sections that are being modified to clarify language (e.g., relating to "FPE certifications," racking systems, and 300 cubic foot limit in § 1228.230(s)), which would apply to all facilities. Because many commercial records centers are small businesses, we felt that this approach would merely add an additional step and paperwork for small businesses. Moreover, the two-tier approach may be confusing to them.

#### Questions for Comment To Assist Regulatory Flexibility Analysis

1. Please provide comment on any or all of the provisions in the proposed rule with regard to

- The impact of the provision(s) including the benefits and costs, if any, on small business, and
- Other alternatives, if any, NARA should consider, as well as the costs and benefits of those alternatives to small business.

2. We are particularly interested in hearing from existing small business-owned records centers that currently have more than 250,000 cubic feet of existing, unused capacity within a single facility that are interested in providing records storage services to the Federal government.

#### Approval and Promulgation of Air Quality Implementation Plans; State of Colorado; Colorado Springs Revised Carbon Monoxide Maintenance Plan and Approval of Related Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

**SUMMARY:** EPA is proposing to take direct final action approving a State Implementation Plan (SIP) revision submitted by the State of Colorado. On April 12, 2004, the Governor of Colorado submitted a revised maintenance plan for the Colorado Springs carbon monoxide (CO) maintenance area for the CO National Ambient Air Quality Standard (NAAQS). The revised maintenance plan contains a revised transportation conformity budget for the year 2010 and beyond. In addition, the Governor submitted revisions to Colorado's Regulation No. 11 "Motor Vehicle Emissions Inspection Program." EPA is proposing approval of the Colorado Springs CO revised maintenance plan, revised transportation conformity budget, and the revisions to Regulation No. 11. This action is being taken under section 110 of the Clean Air Act. In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

**DATES:** Written comments must be received on or before October 7, 2004.

**ADDRESSES:** Submit your comments, identified by RME Docket Number R08-OAR-2004-CO-0002, by one of the following methods:
