

DEPARTMENT OF JUSTICE**Bureau of Alcohol Tobacco Firearms and Explosives****Agency Information Collection Activities: Proposed Collection; Comments Requested**

ACTION: 30-day notice of information collection under review: Identification of Explosive Materials.

The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms and Explosives, has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** volume 69, number 85, on page 24194 on May 3, 2004, allowing for a 60-day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until October 7, 2004. This process is conducted in accordance with 5 CFR 1320.10.

Written comments and/or suggestions regarding the items contained in this notice, especially the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention Department of Justice Desk Officer, Washington, DC 20503. Additionally, comments may be submitted to OMB via facsimile to (202) 395-5806.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of

appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Identification of Explosive Materials.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form Number:* None. Bureau of Alcohol, Tobacco, Firearms and Explosives.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract: Primary:* Business or other for-profit. *Other:* None. The regulations of 27 CFR 555.109 require that manufacturers of explosive materials place marks of identification on the materials manufactured. Marking of explosives enables law enforcement entities to more effectively trace explosives from the manufacturer through the distribution chain to the end purchaser. This process is used as a tool in criminal enforcement activities.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 1,563 respondents will respond to this information collection. There is no estimated time for a respondent to respond because the manufacturers are required to place markings on explosives, the burden hours are considered usual and customary. 5 CFR 1320.3(b)(2) states, there is no burden when the collection of information is usual and customary.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual total burden hour associated with this collection is 1 hour.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Southwest Research Institute: Validation of a Methodology for Assessing Defect Tolerance of Welded Reeled Risers

Notice is hereby given that, on August 12, 2004, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Southwest Research Institute (“SwRI”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to this project and (2) the nature and objectives of a venture titled “Validation of a Methodology for Assessing Defect Tolerance of Welded Reeled Risers.” The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are Chevron Texaco Exploration and Production Technology Company, San Ramon, CA; ExxonMobil Development Company, Houston, TX; and Shell International Exploration & Production, Inc., Houston, TX. The nature and objectives of the venture are to validate the EPPM predictions of ductile tearing and tear-fatigue of pre-existing surface defects, as calculated by FlawPro™, using full-scale pipes subjected to strain excursions representative of pipe reeling and straightening and to assess the influence of reeling strains on fatigue in sweet and sour environments, as well as to validate FlawPro™’s predictions of fatigue performance in these service environments. SwRI originally developed FlawPro™ computer software for analysis of reeled pipe in October 2002.

Membership in this research project group remains open, and the participants intend to file additional written notification disclosing all changes in membership or planned activities.
