

defer the claim only if you agree to continue to care for the crop. We will then make another appraisal when you notify us of further damage or that harvest is general in the area unless you harvest the crop, in which case we will use the harvested production. If you do not continue to care for the crop, our appraisal made prior to deferring the claim will be used to determine the production to count; and

(2) All harvested production from the insurable acreage.

(3) If mature blueberries, harvested or unharvested, are damaged by an insurable cause of loss specified in section 8 of these Crop Provisions, to the extent that the blueberries can not be sold as fresh or processed blueberries, and the percent of damage to the blueberries exceeds that shown in the Special Provisions for the type, production to count for the unit or portion of a unit will be as follows:

(i) The damaged blueberries will not be counted for that acreage if the blueberries are not sold; and

(ii) The production to count for damaged blueberries that are sold will be adjusted by dividing the price received for the damaged blueberries by the applicable price election and multiplying the resulting factor times the pounds sold.

(4) If we determine that frost protection equipment, as shown on your accepted application was not properly utilized, the indemnity for the affected acreage in the unit will be reduced by the percentage reduction allowed for frost protection equipment as specified in the Special Provisions. You must, at our request, provide us records by date for each period the frost protection equipment was used.

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule: Extension of comment period.

SUMMARY: On May 16, 2003 (68 FR 26511), the Nuclear Regulatory Commission (NRC) published in the *Federal Register* for a 75-day comment period proposed 10 CFR 50.69 "Risk-Informed Categorization and Treatment of Structures, Systems, and Components for Nuclear Power Plants." The comment period for this proposed rule was to have expired on July 30, 2003. By letter dated July 3, 2003, Nuclear Energy Institute (NEI) requested a 30-day extension to the comment period. In view of the importance of both the proposed rule and the industry's comments on it, the NRC has decided to extend the comment period by 30 days as requested.
