

properties contaminated by hazardous materials, neighborhood effects, and utility relocations. These and other issues (e.g., noise, air quality, drainage, visual effects) will be evaluated by the EIS for both the long-term and construction period. Measures to mitigate significant adverse impacts will be developed as part of the EIS.

V. Public Involvement

A comprehensive public involvement program (PIP) has been developed and will be implemented as part of the Draft EIS. The PIP will include: Agency and public scoping meetings; community-wide public information meetings; public hearings; informational briefings to stakeholder groups, elected officials, and other local and regional officials; and information dissemination via a project website and newsletters. The PIP will also involve a citizens advisory committee and other stakeholder groups to obtain input on issues, concerns, and advise on neighborhood and transit oriented development issues.

VI. FTA Procedures

The EIS will be prepared in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the regulations implementing NEPA set forth in 23 CFR part 771 and 40 CFR parts 1500–1508. Consistent with FTA policy, the NEPA process will also be used to comply with other federal environmental laws, regulations, and executive orders, such as section 106 of the National Historic Preservation Act, the 1990 Clean Air Act Amendments, section 4(f) of the U.S. Department of Transportation Act, the Endangered Species Act, and Executive Orders 11988, 11990 and 12898 on Floodplain Management, Protection of Wetlands, and Environmental Justice, respectively.

In addition, the City of Albuquerque intends to seek Section 5309 New Starts funding for this project and will therefore follow the requirements of 49 CFR part 611 as well as the requirements of NEPA and all other applicable federal and FTA program requirements. The New Starts regulation requires a planning Alternatives Analysis, which will be completed in conjunction with the Draft EIS. The Alternatives Analysis/Draft EIS will lead to a locally-preferred alternative which must be adopted by the Metropolitan Planning Organization into its financially constrained metropolitan transportation plan before preliminary engineering will be authorized by FTA. If authorized, preliminary engineering for the Central Avenue Corridor Rapid Transit Project

will be conducted in conjunction with the preparation of the final EIS.

Issued on: October 21, 2003.

The line traverses United States Postal Service Zip Code 92374.

In *Transit Agencies*, the Board granted SANBAG and several other California transit agencies an exemption from 49 U.S.C. Subtitle IV. The Board also adopted the agencies' proposal that they file a notice, reciting the labor protection the Board is required to impose and adopting the environmental and historic reports filed by the rail carrier (here BNSF) discontinuing service over the line, to meet the agencies' obligations in fully abandoning the subject rail lines. SANBAG has provided that information

and has adopted the environmental and historic reports for this line submitted by BNSF in its notice of abandonment exemption in *The Burlington Northern and Santa Fe Railway Company—Abandonment Exemption—in San Bernardino County, CA*, STB Docket No. AB-6 (Sub-No. 398X) (STB served Dec. 12, 2002, and consummated Apr. 1, 2003).
