AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of closure of roads and designation of trails.

SUMMARY: The Roswell Field Office of the Bureau of Land Management (BLM) is closing roads and developing multiuse trails to protect resource values within the Fort Stanton ACEC. The Route Designation Plan (transportation plan) includes road closures, designating off-highway vehicle (OHV) routes, designation of multiuse trails, and closing roads, the use of which is causing damage within the ACEC. The designation is in accordance with the 1997 Roswell Resource Management Plan (RMP) and the Fort Stanton ACEC Final Activity Plan of March 2001. In accordance to the RMP and the ACEC Plan, approximately 24,000 acres will be designated as limited to designated roads and trails for OHV use, to protect soils, cultural resources, and vegetation, including threatened or endangered species. Twenty miles of roads will be closed, and twenty miles will be designated as open to OHV's. Sixty miles of multiuse hike/bike/equestrian trails will be designated. The Route Designation Plan is necessary to reduce the impact from recreationists to biological, archaeological, and scenic qualities of the ACEC, while providing for quality recreation opportunities.

DATES: This notice is effective October 27, 2003.

A person who wishes to appeal to the Interior Board of Land Appeals must file in the office of the officer who made the decision (the Roswell Field Office) a notice that he wishes to appeal. The authority for the proposed activities is under 43 CFR part 8342, which provides for the designation of roads and trails to protect resources of the public lands. This section goes on to require public participation, designation, and identification of designated areas and trails. Public meetings have been completed. Public participants were also involved in the NEPA process and were given an opportunity to comment on the Environmental Assessment for the Route Designation Plan. The RMP constitutes the formal designation process for OHV's. This Notice will serve as a public notice for the official designation and identification of specific roads and trails in the Fort Stanton ACEC. Appropriate informational material will be provided and available to the public at the BLM office. The Fort Stanton ACEC is located approximately 5 miles southeast of the village of Capitan, New Mexico, and approximately 10 miles north east of the village of Ruidoso, New Mexico.

The Roswell RMP designated Fort Stanton as an ACEC in 1997. A collaborative final activity plan was developed for the ACEC in March 2001. The ACEC Plan took approximately 2 years to complete with extensive public scoping and public assessment. The Route Designation Plan/Environmental Assessment was developed over an 18-month period with a collaborative work group. All public meetings were held in the evening, approximately 4 miles from the ACEC in the town of Capitan, New Mexico. This notice will not affect valid existing rights to public land users. Under the 1997 Roswell Resource Management Plan (RMP), the area will remain open to saleable mineral disposal.
