The postal survey will systematically collect self-reported demographic, health and exposure data from a randomly selected subset of the US military population. Half of those surveyed will have been immunized with the smallpox vaccine and half will not. Objective DoD healthcare utilization data will already have been collected for all survey subjects. The purpose of the survey will be to determine whether health problems exist among service members that are not visible to the DoD medical treatment system, and further, whether such problems may be related to exposure to the smallpox vaccine. Eligible respondents of this survey are individuals who were included in the historical prospective study and have verifiable mailing addresses.

*Title:* National Postsecondary Student Aid Study: 2004.

*Frequency:* One time.  
*Affected Public:* Individuals or household; businesses or other for-profit institutions.

*Reporting and Recordkeeping Hour Burden:*

Responses: 103,431.

Burden Hours: 43,096.

*Abstract:* The 2004 National Postsecondary Student Aid Study is being conducted to meet the continuing need for national-level data about significant financial aid issues for students enrolling in postsecondary education. Information about financial aid policies and postsecondary affordability is critical to policymakers who determine the need analysis formulas for Pell Grants, maximum amounts for student loans and other need-based federal programs, and estimate the continuing and future burden that ensuring federal aid places on the Federal Government. For the first time this study will also collect representative data on state aid and tuition policies which have been previously unavailable at the student level. This clearance request covers full-scale activities for the student interview phase of the study. This interview will collect information on background, program of study, enrollment status, federal aid amounts, other types of aid, tuition, school-related expenses, student and parent finances, student employment, credit card usage, and educational expectations.
