

Rhonda Karges (541) 573-4433 or Gary Foulkes (541) 573-4541 at the Burns District Office.

SUPPLEMENTARY INFORMATION: The Steens Mountain Cooperative Management and Protection Act (Steens Act) of 2000 (Pub. L. 106-399) established the 496,136-acre CMPA primarily within the Andrews Resource Area (a small portion is within the Three Rivers Resource Area). The Andrews Resource Area and the CMPA portion of the Three Rivers Resource Area comprise the Planning Area. The remaining portion of the Andrews Resource Area outside of the CMPA is identified as the Andrews Management Unit. Other special designated areas were created by the Steens Act and include the Wildland Juniper Management Area, the Steens Mountain Wilderness (170,084 acres), new Wild and Scenic River designations, a no livestock grazing area (97,229 acres), and the Donner und Blitzen Redband Trout Reserve. In addition, the Steens Act authorized five specific land exchanges, created a citizen's advisory council (Steens Mountain Advisory Council), established a Mineral Withdrawal Area, and created new Wilderness Study Area (WSA) boundaries. Congress recognized that the CMPA provides for exceptional cooperative management opportunities and offers outstanding natural, cultural, scenic, wilderness, and recreational resources. To ensure that these resources are appropriately managed, the Steens Act requires that a management plan be completed within four years of passage of the Steens Act. At the end of the planning/analysis process, the CMPA and Andrews Management Unit RMPs will be finalized in two separate Records of Decision.

The Draft RMP/Draft EIS contains five alternatives. Alternative A is a no action/continuation of current management alternative. Alternative B excludes commodity production and limits other uses to maximize natural processes. Alternative C emphasizes protection and active restoration of natural values. Alternative D balances cultural, economic, ecological, and social health in a manner that encourages cooperative management practices. Alternative D is the preferred alternative. Alternative E emphasizes commodity production and public uses.

Public input during scoping and review of the Summary of the Analysis of Management Situation identified 17 issues for analysis in the RMP/EIS. These issues are outlined in Chapter 1 of the Draft RMP/Draft EIS. In addition,

the Planning Criteria, which are the constraints or ground rules directing development of the RMP, are outlined in Appendix D (Legal Authorities, Planning Criteria and Management Direction and Consistency with Other Plans).

There have been numerous opportunities for public involvement in the process to date, including four separate public scoping meetings held in Burns, Frenchglen, Portland, and Bend, Oregon. A newsletter was also mailed to all interested parties requesting input on the alternatives, planning criteria, and the goals and objectives for resource management. In addition, the Steens Mountain Advisory Council and the Southeast Oregon Resource Advisory Council have closely participated in the process.

Numerous meetings have been held and coordination has been conducted with the Burns Paiute Tribal Council, Oregon Department of Fish and Wildlife, the Governor's Office, Oregon Department of Environmental Quality, U.S. Fish and Wildlife Service—Ecological Services and Malheur National Wildlife Refuge, the City of Burns, the City of Hines, Oregon Department of Water Resources, the Harney County Court, Harney County Chamber of Commerce, and adjacent BLM offices.

Dated: July 16, 2003.

Elaine M. Brong,

State Director, Oregon/Washington.
